BRIGHTER STARTS HERE

JOIN OUR IT TEAM AND HELP CREATE
A LOW CARBON, SUSTAINABLE FUTURE.

APPLY NOW

Application Development is responsible for the design, build and implementation of quality software products that enable the transformation of ESB to a world class Digital Utility. Our teams work across many different types of delivery structures and delivery methods e.g., Scrum, Kanban and Waterfall.

In Application Development we get exposure to the latest trends in software and technology development using Microsoft Azure technology to build new Cloud based business services, Azure DevOps to enable the rapid deployment of new business services and Azure API-M to build our integration points across internal and external business services.

Our software development stack continues to evolve and currently we build new solutions across multiple development frameworks and technology using .Net/C#, React JS, Bootstrap/JQuery, Java and SAP Fiori / SAP ABAP.

Digital Developer

Working within our large Application Development team, you will be part of a highly motivated and skilled team of software developers

This role is hands-on and could be assigned to projects or support teams and key part of their role will also include troubleshooting and fixing any issues with existing applications. This role will be working with on-premise applications and cloud solutions using Microsoft Azure.

Key Responsibilities

The successful candidate will be involved in developing ESB's new Digital Platform services which contains the following components:

- .NET Web Applications (MVC and Web API)
- Responsive UI Design
- Web Services using RESTful APIs
- Use of Microsoft Azure for Platform as a Service components
- Use of Microsoft Visual Studio Team Services / Azure DevOps for Agile Development

Knowledge, Skills and Experience

Essential

- At least 3 years' working experience in software development.
- Experience in developing Microsoft .NET C# applications, ideally external facing web applications using Microsoft .NET MVC5 framework or content management systems.
- Experience of software development lifecycle including solution design, development and release management.
- Familiarity with unit testing and source control.
- Strong communication skills.

- Demonstratable motivation to learn new development skills.

Desirable

- A good working knowledge of JavaScript, HTML 5 and CSS3.
- Knowledge of a JavaScript framework (Angular, React, Vue) will be an added advantage.
- Experience in developing and using web services, ideally .NET Web API projects using REST or SOAP APIs.
- Experience of Agile software development, ideally using SCRUM methodology
- Experience of Microsoft Azure Platform as a Service
- A good working knowledge of .NET Framework/Core, SQL Server and IIS
- Use of Microsoft Visual Studio Team Services / Azure DevOps

Above all, you must be innovative in your approach and be able to demonstrate your ability to actively contribute to a team that delivers results.

Qualifications

Essential

- Third level qualification in a relevant discipline or equivalent work experience.

Reporting to

- The successful candidate will report to a Team Lead within the Application Development team, IT Delivery.

Location

Base Location: Limerick or Fitzwilliam 27, ESB's new Head Office, Dublin (Smart/Remote Working suitable)

ESB is committed to offering flexibility in ways of working and we call that **Smart Working** – combining digital tools with a culture of trust and empowerment to enable flexible and remote ways of working.

The successful candidate may combine remote / smart working within the jurisdiction (Republic of Ireland), with attendance at base for in-person collaboration, the frequency of which is agreed with the manager and subject to ongoing review.

Further Information

Further information on all our current Digital/Technology/IT related roles, including full job descriptions and information on our Smart Working as well as our new state of the art Head Office Fitzwilliam 27, visit www.esb.ie/careers

In return, we offer excellent career enhancing opportunities where our people can thrive in a fast paced, agile environment by giving them the tools, flexibility and autonomy to deliver on our purpose: leading the transition to a secure, affordable, low-carbon energy future for our customers and communities.

We pride ourselves in the mentoring, training and development offered to staff, as well as our competitive and attractive rewards and benefits package.

We are also offering a once-in-a-generation opportunity to empower our people to work smarter, enjoy the benefits of an inclusive, flexible working culture and significantly reduce carbon emissions through remote and hybrid working.

Closing Date

Closing date for applications is Monday 18th October 2021.
