BRIGHTER STARTS HERE

JOIN OUR IT TEAM AND HELP CREATE
A LOW CARBON, SUSTAINABLE FUTURE.

APPLY NOW

Application Development is responsible for the design, build and implementation of quality software products that enable the transformation of ESB to a world class Digital Utility. Our teams work across many different types of delivery structures and delivery methods e.g., Scrum, Kanban and Waterfall.

In Application Development we get exposure to the latest trends in software and technology development using Microsoft Azure technology to build new Cloud based business services, Azure DevOps to enable the rapid deployment of new business services and Azure API-M to build our integration points across internal and external business services.

Our software development stack continues to evolve and currently we build new solutions across multiple development frameworks and technology using .Net/C#, React JS, Bootstrap/JQuery, Java and SAP Fiori / SAP ABAP.
