TOP TIPS FOR USING THE ECAR CONNECT APP

DID YOU KNOW YOU CAN:

01 Automatically find your nearest available charge point

02 View your account balance

03 Top up your ESB EV account for pre-pay/PAYG customers

04 Make a one time payment without having to sign up to a plan

05 Mark frequently used chargers as a favourite by selecting the heart button on the charger screen when you are logged in to your account

06 Manage your notification preferences to keep informed about account activity eg when your invoice is available or when your payment card expires

07 Update your payment details

08 Get notified when you are nearing the overstay danger zone or when a specific charger becomes available

09 See when current in-progress charging sessions started so you can judge when the charge point will be available again

10 Set your filter to only show available chargers with the connector you need

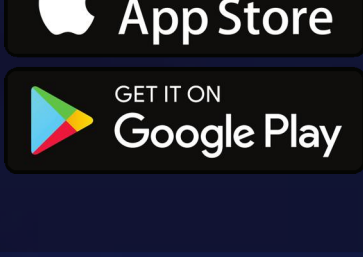

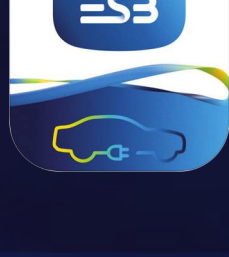

11 Get directions to any charger

12 Order an ESB charge point access card

13 Report a fault

Download the **ecar connect app** for free from the **App Store** and **Google Play**
