

INFORMATION FOR TEACHERS VISITING ARDNACRUSHA POWER STATION

- Worksheets will be available to download from the website
- Occasionally guides will request to take photographs of tour groups for use in press or on social media. Guides will ask permission from the person in charge and will have them sign an image rights' form.
- If you are part of a large group, we need to ensure all your group are accounted for entering and exiting the site. Could you please provide a list of names for all attending and **present to security at site entrance**. This list will be shredded at the end of each day.
- All school groups booking a visit will be met on arrival by a trained tour guide and will be given an introduction to Ardnacrusha and a safety briefing.
- The school/group leader will have overall responsibility for the supervision and conduct of pupils/students during the duration of the visit and should have regard to the health and safety of the group.
- The school/group leader must remain with their designated group at all times and keep pupils under constant supervision.
- All school/group leaders should be aware that Ardnacrusha is a working generating station and that health and safety is a priority therefore anyone behaving in a way that compromises the health and safety of others, will be asked to leave the site.
- There are lots of social media opportunities with the tour in terms of pics. If your school is on social media we'd love if you would get the conversation started by mentioning you will be taking a tour using the hashtags #Ardnacrussha @ESBGroup and of course ESB will give you a retweet/share etc!
