Under this EUR5,000,000,000 Euro Medium Term Note Programme (the **Programme**), Electricity Supply Board (**ESB**) and ESB Finance DAC (**ESB Finance**) (together, the **Issuers** and each of them, an **Issuer**) may from time to time issue notes denominated in any currency agreed between the relevant Issuer and the relevant Dealer (as defined below). The Notes will be governed by English law (the **English Law Notes**) or Irish law (the **Irish Law Notes** and, together with the English Law Notes, the **Notes**) as specified in the applicable Final Terms (as defined below).

The payment of all amounts due in respect of Notes issued by ESB Finance will be unconditionally and irrevocably guaranteed by ESB (in such capacity, the **Guarantor**).

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “**Overview of the Programme**” and any additional Dealer appointed under the Programme from time to time by the relevant Issuer (each a **Dealer** and together the **Dealers**), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the **relevant Dealer** shall be to the Dealer agreeing to subscribe an issue of Notes or, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see “Risk Factors”.

This Offering Circular constitutes a base prospectus for the purposes of Article 8 of Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**) and has been approved by the Central Bank of Ireland as competent authority under the Prospectus Regulation. The Central Bank of Ireland only approves this Offering Circular as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuers or the Guarantor or of the quality of the Notes that are the subject of this Offering Circular. Investors should make their own assessment as to the suitability of investing in the Notes. Such approval relates only to Notes which are to be admitted to trading on the regulated market of the Irish Stock Exchange plc trading as Euronext Dublin (**Euronext Dublin**) or on another regulated market for the purposes of Directive 2014/65/EU (as amended, **MiFID II**) and/or which are to be offered to the public in any member state of the European Economic Area (**EEA**) in circumstances that require the publication of a prospectus. This Offering Circular is valid for a period of twelve months from its date. The obligation to supplement the Offering Circular in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Offering Circular is no longer valid.

Application has been made to Euronext Dublin for Notes issued under the Programme during the period of twelve months from the date of this Offering Circular to be admitted to its official list (the **Official List**) and to trading on its regulated market (the **Regulated Market**). The Regulated Market is a regulated market for the purposes of MiFID II.

References in this Offering Circular to Notes being **listed** (and all related references) shall mean that, unless otherwise specified in the applicable Final Terms, the Notes have been admitted to the Official List and to trading on the Regulated Market.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined under “**Terms and Conditions of the Notes**”) of Notes will be set out in a final

terms document (**Final Terms**) which will be delivered to the Central Bank of Ireland and, where listed, to Euronext Dublin. Copies of Final Terms in relation to Notes to be listed on the Official List of Euronext Dublin will be published on the website of Euronext Dublin.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the relevant Issuer and the relevant Dealer. Either Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**) or any U.S. State securities laws and may not be offered or sold in the United States or to, or for the account or the benefit of, U.S. persons as defined in Regulation S under the Securities Act unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

The Programme has been rated A3 by Moody's Investors Service Limited (**Moody's**) and A- by S&P Global Ratings Europe Limited (**S&P**). S&P is established in the EEA and is registered under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**). S&P is included in the list of credit rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. Moody's is established in the United Kingdom (**UK**) and registered under Regulation (EU) No 1060/2009 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (the **UK CRA Regulation**). The list of rating agencies registered under the UK CRA Regulation can be found at: <https://register.fca.org.uk/s/>. Moody's is not established in the EEA and has not applied for registration under the CRA Regulation. The ratings issued by Moody's have been endorsed by Moody's Deutschland GmbH in accordance with the CRA Regulation. Moody's Deutschland GmbH is established in the EEA and registered under the CRA Regulation. As such, Moody's Deutschland GmbH is included in the list of credit rating agencies published by ESMA.

Notes issued under the Programme may be rated or unrated by any one or more of the rating agencies referred to above. Where a Tranche of Notes is rated, such rating will be disclosed in the Final Terms and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 (the **Benchmarks Regulation**). Transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 (Register of administrators and benchmarks) of the Benchmarks Regulation. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the Final Terms to reflect any change in the registration status of an administrator. As at the date of this Offering Circular, the administrator of EURIBOR (the European Money Markets Institute) is included in the register of administrators and benchmarks established and maintained by ESMA under Article 36 of the Benchmarks Regulation.

Each of ESB and ESB Finance accepts responsibility for the information contained in this Offering Circular and the Final Terms for each Tranche of Notes issued under the Programme. To the best of the knowledge of ESB and ESB Finance the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated in it by reference (see “*Documents Incorporated by Reference*”). This Offering Circular shall be read and construed on the basis that those documents are incorporated into and form part of this Offering Circular.

Other than in relation to the documents which are deemed to be incorporated by reference (see “*Documents Incorporated by Reference*”), the information on the websites to which this Offering Circular refers does not form part of this Offering Circular.

Neither the Dealers nor the Trustee (as defined below) have independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers or the Trustee as to the accuracy or completeness of the information contained in this Offering Circular or any other information provided by ESB and/or ESB Finance in connection with the Programme. None of the Dealers or the Trustee accepts any liability in relation to the information contained in this Offering Circular or any other information provided by ESB and/or ESB Finance in connection with the Programme.

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by ESB, ESB Finance, any of the Dealers or the Trustee.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by ESB or ESB Finance, any of the Dealers or the Trustee that any recipient of this Offering Circular or of any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of ESB and/or ESB Finance. Neither this Offering Circular nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of ESB or ESB Finance, any of the Dealers or the Trustee to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained in it concerning ESB and/or ESB Finance is correct at any time subsequent to its date or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of ESB or ESB Finance during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**) or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 (as amended, the **Prospectus Regulation**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (FSMA) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of UK domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “**MiFID II product governance**” which will outline the target market assessment in respect of the relevant Notes and which channels for distribution of the relevant Notes are appropriate. Any person subsequently offering, selling or recommending the relevant Notes (a **MiFID II distributor**) should take into consideration the target market assessment; however, a MiFID II distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the relevant Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 of 7 April 2016 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “**UK MiFIR product governance**” which will outline the target market assessment in respect of the relevant Notes and which channels for distribution of the relevant Notes are appropriate. Any person subsequently offering, selling or recommending the relevant Notes (a **UK MiFIR distributor**) should take into consideration the target market assessment; however, a UK MiFIR distributor subject to the UK Financial Conduct Authority Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the relevant Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Notice to Ontario permitted investors - The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Offering Circular (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

If applicable, pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non-Canadian jurisdiction, section 3A.4) of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the

Dealers are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notes issued as Green Bonds – None of the Dealers accepts any responsibility for any environmental or sustainability assessment of any Notes issued as Green Bonds or makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such "green" or similar labels. None of the Dealers is responsible for the use of proceeds for any Notes issued as Green Bonds, nor the impact or monitoring of such use of proceeds. In addition none of the Dealers have conducted any due diligence in relation to the Issuer's green bond framework dated May 2019 (the **Green Bond Framework**). Sustainalytics has issued an independent opinion, dated May 2019, on the Issuer's Green Bond Framework (the **Second Party Opinion**). The Second Party Opinion provides an opinion on certain environmental and related considerations and is not intended to address any credit, market or other aspects of an investment in any Notes, including without limitation market price, marketability, investor preference or suitability of any security. The Second Party Opinion is a statement of opinion, not a statement of fact. No representation or assurance is given by the Issuers, the Guarantor or any of the Dealers as to the suitability or reliability of any opinion or certification of any third party made available in connection with an issue of Notes issued as Green Bonds, nor is any such opinion or certification a recommendation by the Issuers or any Dealer to buy, sell or hold any such Notes. As at the date of this Offering Circular, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. The Second Party Opinion and any other such opinion or certification is not, nor should be deemed to be, a recommendation by the Dealers, or any other person to buy, sell or hold any Notes and is current only as of the date it is issued. The criteria and/or considerations that formed the basis of the Second Party Opinion or any such other opinion or certification may change at any time and the Second Party Opinion may be amended, updated, supplemented, replaced and/or withdrawn. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein. The Issuer's Green Bond Framework may also be subject to review and change and may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ from any description given in this Offering Circular. The Issuer's Green Bond Framework, the Second Party Opinion and any other such opinion or certification does not form part of, nor is incorporated by reference in, this Offering Circular. In the event any such Notes are, or are intended to be, listed, or admitted to trading on a dedicated "green" or other equivalently-labelled segment of a stock exchange or securities market, no representation or assurance is given by the Issuer or any of the Dealers that such listing or admission will be obtained or maintained for the lifetime of the Notes.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS OFFERING CIRCULAR AND OFFERS OF NOTES GENERALLY

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. ESB, ESB Finance, the Dealers and the Trustee do not represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by ESB, ESB Finance, the Dealers or the Trustee which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the EEA (including Ireland), the UK and Japan, see “*Subscription and Sale*”.

This Offering Circular has been prepared on the basis that any offer of Notes in any Member State of the EEA or the UK (each, a “Relevant State”) will be made pursuant to an exemption under the Prospectus Regulation (in the case of the UK only, as it forms part of UK domestic law by virtue of the EUWA) from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant State of Notes which are the subject of any offering contemplated in this Offering Circular may only do so in circumstances in which no obligation arises for ESB or ESB Finance or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. Neither ESB, ESB Finance nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for ESB or ESB Finance or any Dealer to publish or supplement a prospectus for such offer.

SUITABILITY OF INVESTMENT

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant indices and financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

RISK FACTORS

Except where the context otherwise requires, references in this section entitled “Risk Factors” to (a) the “Issuer” shall be construed as references to the relevant Issuer of a Series of Notes, (b) the “Guarantor” shall be construed as references to the Guarantor with respect to a Series of Notes, if applicable and (c) the “Guarantee” shall be construed as references to the Guarantee with respect to a Series of Notes, if applicable.

In purchasing Notes, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes or under the Guarantee. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due. ESB and ESB Finance believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer and the Guarantor to pay interest, principal or other amounts on or in connection with any Notes or the Guarantee may occur for other reasons which may not be considered significant risks by ESB and/or ESB Finance based on information currently available to them or which they may not currently be able to anticipate.

The purchase of Notes involves substantial risks and is suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Notes. Before making an investment decision, prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risks and that they consider carefully, in the light of their own financial circumstances, financial condition and investment objectives, all the information set forth in this Offering Circular as supplemented from time to time.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and reach their own views, based upon their own judgement and upon advice from such financial, legal and tax advisers as they have deemed necessary, prior to making any investment decision.

RISK FACTORS RELATING TO THE ISSUER, THE GUARANTOR AND THE GROUP

1. Business risks

The economic environment in which the Group operates

The ability of the Group to maintain and grow its business and profit levels could be adversely affected by macroeconomic factors, such as a general economic downturn, including as a result of the impact of the ongoing Russian/Ukraine conflict. The Irish and UK economies began 2022 with strong growth momentum following the lifting of restrictions imposed by the Irish and UK governments in response to the pandemic caused by the novel coronavirus disease (COVID-19). However, the ongoing conflict in Ukraine combined with higher inflation (along with monetary policy measures which might be taken to control it), the impact of sharply rising energy and food prices, as well as greater uncertainty and negative consumer confidence trends, all imply challenges for growth and have amplified the level of macroeconomic risk faced by the Group. The increase in uncertainty and disruption to international supply chains may also constrain investment growth in the near term. The ongoing conflict in Ukraine, as well as continued COVID-19 pandemic related lockdowns in China, are expected to exacerbate strains on global supply chains and international trade. In addition, action taken by central banks to control inflation may increase borrowing costs for ESB.

The ongoing risk of a resurgence of COVID-19 or related vaccine-resistant variants that may require further public health restrictions to be imposed remains while the pandemic may also carry significant legacy risk, in particular, longer-term economic consequences for individuals or companies.

Any of the above could result in lower business activity levels and/or lower profitability in existing Group business lines. In addition, the fixed nature of a significant proportion of the Group's cost base could, in such circumstances, make it difficult for the Group to achieve cost savings which may be required in response to lower business activity levels.

An economic downturn could also adversely affect the ability of the Group to proceed with planned investment. Furthermore the value of the Group's regulated asset base and its allowed cost base is adjusted for inflation or deflation as part of the applicable regulatory pricing structure (see further the section of this Offering Circular entitled "*Description of ESB*"). Therefore the occurrence of a significant economic recession in Ireland and/or deflation in Ireland (for example, as a result of monetary policy designed to control inflationary pressure) could have an adverse effect on the Group's results of operations, prospects and/or financial condition.

Systems and business interruption and information security/cyber risk

The Group's ability to manage its operations and engage in critical business tasks is dependent on the efficient and uninterrupted operation of its IT, software, hardware and communication systems and on key personnel and suppliers who provide, operate or maintain these systems. It is also dependent on the performance of the IT, software, hardware and communication systems used by third parties in the course of their dealings with the Group. There is a risk that a relevant system could fail due to human error, technical issues outside the control of the Group, lack of adherence to internal policies, upgrade failure and/or supplier non-performance.

Any such failure could have an adverse effect on the Group's results of operations, operating cost, prospects and/or financial condition.

Whilst the Group treats the security of its information and systems with the upmost seriousness and employs a range of best practice cyber security measures, the confidentiality, integrity and availability of information owned or controlled by the Group could be affected by factors that include human error, ineffective design or operation of key controls, data theft or through cyber-attack.

Recent geopolitical tensions have increased the potential for such an attack. The National Cybersecurity Centre (NCSC) issued an updated threat assessment on 23 April 2022 where they increased the threat level to Ireland to a direct cyber-attack from Russian state actors from low to medium. Ireland is now included on a list of unfriendly countries published by the Russian government on 7 March 2022. Reasons for the elevation in threat level are the anticipated increase in Russian offensive cyber operations globally.

The impact of any such cybersecurity breach could also have consequences for the Group under EU data protection legislation such as Regulation (EU) No 2016/679 (**GDPR**) which could lead to potential fines of up to 10 per cent. of an organisation's global revenues for data protection breaches.

Loss of data integrity and any compromise of the availability or confidentiality of information or systems held and operated by the Group could affect the Group's ability to conduct day-to-day operations and may have an adverse impact on the Group's business, reputation, results of operations, operating costs, prospects, safety and/or financial condition.

Risks to the delivery of large-scale infrastructure projects and systems

Given recent global policy trends towards decarbonisation (which is reflected in the Commission for Regulation of Utilities' (CRU) Price Review 5 (**PR5**) – see further the section of this Offering Circular entitled "*Description of ESB – ESB Networks Regulated Returns*") together with economic growth, there is a risk that ESB might fail to deliver the growing and increasingly complex electricity network and renewable generation infrastructures and systems required to meet future customer and societal needs, particularly in the areas of constructing and connecting renewable energy sources, supporting wholesale electrification and facilitating distributed energy services.

In addition, such capital projects may not meet the forecast cost, timeline or project quality criteria required to deliver their intended benefits or ensure adequate asset life. These risks have been amplified by recent issues with supply chains, consenting and planning and the increasing scale of individual projects in areas such as offshore wind generation and onshore electricity transmission. Over time, any such failures may have an adverse impact on the Group's business, reputation, results of operations, prospects, and/or financial condition, including potentially impacting its regulatory relationships. Ultimately, failure to deliver growth in the Group's regulated networks' business may also increase the proportion of its earnings derived from riskier unregulated businesses.

Security of primary energy sources

The principal sources of primary energy in the Irish electricity market are gas, coal, hydro and wind. Approximately 70 per cent. of the primary energy for electricity production in Ireland is imported fuel. At present approximately 50 per cent. of gas used in Ireland is purchased on the UK gas markets, which in turn are supplied by production in the UK, European imports and the import of liquefied natural gas. The balance comes from indigenous resources, primarily the Corrib gas field. The Corrib gas field started commercial production in late 2015 and has materially reduced the dependence on gas imports in Ireland. Production at Corrib has peaked, and output has begun to decline, meaning the proportion of Irish gas attributable to domestic production (as opposed to imports) is expected to reduce to zero over the next 15 years. There is a risk that the Group's electricity generating capability, reputation, regulatory and political relationships and its financial condition and operations could be materially adversely affected if there is any disruption to the importation of fuel into Ireland. Given European dependence on imports of Russian gas, the ongoing conflict in Ukraine has increased these risks.

2. Political, regulatory and legal risks

Regulation of markets and networks

A significant part of the business activities of ESB and the Group are carried on in regulated markets and are therefore subject to regulation as licensed activities. As a vertically integrated undertaking, ESB is subject to a broad range of licence obligations and to various legal and regulatory ring-fencing and unbundling obligations. Any non-compliance with applicable obligations could lead to investigation, sanctions, or ultimately loss of licence and/or, in the case of unbundling obligations, the imposition of more onerous structural unbundling or divestment requirements. Whilst ESB has rigorous compliance measures in place, there is inevitably a degree of residual risk, for example that based on subjective analysis, a competent authority such as a regulator could make an unfavourable decision.

In particular, changes to the regulatory regimes operated by the Irish energy regulator, the CRU or by the Northern Ireland energy regulator, the Northern Ireland Authority for Utility Regulation (**UR**), the United Kingdom's Office of Gas and Electricity Markets (**OFGEM**) and/or changes in regulated rates of return, or the basis on which such rates of return are calculated, including, for example, the continued use of the Capital Asset Pricing Model (**CAPM**), and/or changes in margins earned by the Group, could impact adversely on the Group's financial performance, operations and prospects. In addition and over the longer-term, changes to networks' regulatory models to enhance levels of contestability may also reduce the earnings, growth potential and profitability of ESB's regulated networks businesses.

Even in markets where the Group is not subject to price regulation directly, changes to the structure or regulation of the relevant market could have an adverse impact on the Group's financial performance, operations and prospects. An example of this can be seen in the Great Britain retail energy market where the presence of a price cap imposed by regulatory authorities combined with wholesale gas price volatility, has created major financial issues and generated losses for retail suppliers including So Energy (ESB's retail arm in Great Britain).

The Price Review for the period 2021-2025 (inclusive) (**PR**) was completed in December 2020 for ESB Networks and agreed with the CRU. The PR, given the scale of capital expenditure required to meet climate and other energy policy requirements and potential pressure on regulated returns stemming from concerns over increases in Networks' tariffs has the potential to pose risks to the financial strength of the Group. Under PR5, available performance incentives have been increased and a cost incentive has been introduced which will allow ESB to retain revenue associated with the efficient delivery of outputs. Failure on behalf of ESB Networks to meet such incentives may result in significantly reduced earnings for the Group as well as regulatory penalties being imposed on the Group.

Regulatory interventions in relation to energy affordability, stemming from policy and political responses to increased fuel prices, could also have a financial impact on ESB wholesale/generation, retail energy and regulated network businesses (for example, measures to ameliorate network user tariffs).

There has been an increased occurrence of electricity system "amber alerts" reflecting concerns among electricity system operators in Ireland and the UK regarding the amount of available generation capacity to meet system needs. Amber alerts are issued when the electricity system comes under pressure to meet demand, often at periods of low wind. The ongoing conflict in Ukraine may also increase the risk of security of supply in the event of an interruption to gas supplies. In the event of power outages, there may be a risk of political or regulatory action which could have a detrimental financial or reputational impact against ESB and other electricity market participants.

Climate policy/transition and other environmental, social and governance (ESG) risks

Current public policy, designed to reduce the impact of greenhouse gases through societal decarbonisation at national and European level, could pose financial risks for the Group over the short and long-term by way of reduced profitability from thermal generation plants and/or thermal station closures ahead of schedule.

The Group's businesses are increasingly influenced by global, European and national policies designed to address climate change. Failure to adhere to current or future legislation aimed at addressing climate change could adversely impact on the Group's operations or commercial position. Climate change induced changes to the environment, such as increased frequency of extreme weather conditions may also pose operational challenges. Failure to respond adequately to the risks posed by both climate change and policies designed to mitigate it, could have an adverse effect on the Group's results of operations, operating cost, reputation and/or financial condition. In addition, failure to put in place and maintain reporting, monitoring and control mechanisms for climate and other ESG obligations and commitments may result in negative financial and/or reputational consequences for the Group.

Geopolitical risks

Geopolitical risks remain relevant for the Group. Principally, as at the date of this Offering Circular, the long-term impact on the Group's business of the ongoing conflict in Ukraine remains uncertain. The long term implications of this crisis include measures to reduce the reliance of the European Union and the United Kingdom on Russian fossil fuels which may reshape energy policy with a renewed focus on energy security. The financial impact of this conflict could be significant but currently remains unclear.

A significant portion of ESB's earnings are generated within the Single Electricity Market (**SEM**) which operates across Northern Ireland and the Republic of Ireland. Changes to the SEM introduced in October 2018 provide a link between the SEM and European markets and also presents uncertainty and increased complexity for ESB's business.

The continued operation of this market is stipulated under the Trade & Co-operation Agreement (**TCA**) which came into effect following the United Kingdom's departure from the European Union on 31 December 2020. The Protocol on Ireland/Northern Ireland provides for the continued application of applicable EU energy legislation in Northern Ireland (notwithstanding the UK's departure from the EU), with a view to preserving the continuation of the SEM, although there is provision for review of this arrangement by the Northern Ireland Assembly over time and the longer term implications for the SEM cannot be known if energy legislation or policy in each jurisdiction ultimately diverges. Any such divergence in legislation would increase the complexity of operating in the SEM and the associated costs, which could have an adverse effect on the Group's operations, prospects and financial condition.

In addition, in the event of a trade dispute between the EU and the UK, a unilateral breach of the Protocol by either party may undermine the structures of the SEM which could also have an adverse effect on the Group's operations, prospects and financial condition.

State ownership and Government control

ESB is majority owned by the Government of Ireland (see further the section of this Offering Circular entitled "*Description of ESB – Overview*"). As such, the Group's strategy, business operations, capital structure, corporate and environmental policies, profitability, dividend policy and level of retained profit are directly and indirectly influenced by decisions of the Government of Ireland over which the Group has no control. There is a risk that dividend policy could be changed such that the retained profits of the Group are lower. In addition, under its governing legislation, ESB is required to obtain the consent of the Minister for Environment, Climate and Communications, the Minister for Finance and/or the Minister for Public Expenditure and Reform of Ireland in order to engage in a variety of commercial transactions. There can be no assurance that such consents will be forthcoming when requested by the management of ESB and failure to obtain such consents could negatively impact profitability of the Group. Political developments (including the composition and identity of the Government of Ireland from time to time) and considerations, therefore, have the ability to adversely impact upon the Group's business, results of operations, operating costs, prospects and/or financial condition.

3. Financial risks

Financial market & commodity price risks

The Group is exposed to a variety of wholesale market trading and financial market risks, including interest rate, foreign exchange, counterparty credit, funding, commodity and liquidity risks. Entities in the Group are party to various hedging arrangements including, without limitation, commodity prices, interest rate, inflation-linked, and foreign exchange swaps which are intended to mitigate such risks but which also carry their own counterparty risks. The Group's exposure to funding and liquidity risks can be exacerbated by factors such as (i) debt repayment requirements; (ii) cash collateral or break provisions within derivative contracts to which Group members are party; and (iii) unanticipated changes in the level or timing of revenues or capital and operating expenditure requirements. In particular, cash collateral requirements in respect of marked to market movements in the value of open forward fuel commodity trades can have an impact on the timing (although not the ultimate cost) of hedged fuel commodity purchases. In addition, reductions in anticipated electricity demand (for example arising from any resurgence of COVID-19) could lead to Group entities becoming over-hedged in respect of

such forward fuel commodity requirements. The Group seeks to ensure that all of these risks are, monitored, reported and managed within a strict framework of controls and procedures. Nevertheless, there can be no assurance that market, political or legislative developments will not have an adverse effect on the Group's financial performance.

ESB has exposure to the wholesale price of power, fuels and carbon allowances in connection with its electricity generation and supply activities and the volatility of these products has increased in recent years. There is a risk that the Group's profits could be materially affected by changes in the price of power, fuel and carbon allowances and by relative movements in the cost of generation.

Where possible, the Group applies IFRS 9 hedge accounting treatment to its treasury related derivative transactions. However certain derivative transactions, including, but not limited to, the Group's inflation-linked (Retail Price Index or **RPI**) swaps, which hedge a large proportion of the debt associated with the Group's Northern Ireland network assets, are not eligible for such hedge accounting treatment. The marked to market valuation of these swaps is influenced by changes in UK real interest and forward inflation rates. Therefore the volatility in the marked to market valuation of these swaps, which can be significant, impacts the Group's income statement and, depending on the marked to market valuation on any reporting date, could have an adverse effect on the Group's reported profits for that period.

See further "*Description of ESB – ESB's Summary Financial Information*".

Borrowing restrictions and covenants

ESB is subject to certain covenants and restrictions under the terms of its senior unsecured debt securities and credit facilities. There is a risk that ESB will fail to comply with such restrictions or covenants and this could have an adverse effect on the Group's ability to refinance its debt with an associated impact on interest costs.

4. Factors that may affect the ability of ESB Finance to fulfil its obligations under Notes issued by it under the Programme

ESB Finance is a special purpose financing entity

ESB Finance is a special purpose financing entity with no business operations other than the entry into of financing arrangements (including the issuance of Notes under the Programme), the lending of the proceeds to ESB or other members of the Group, the giving of intra-group guarantees, and the entry into of certain ancillary arrangements, including related hedging contracts. ESB Finance's only material assets are receivables due to it from ESB or other members of the Group under intra-Group financing arrangements and/or from third parties. Therefore, ESB Finance is subject to all risks to which ESB is subject, to the extent that such risks could limit ESB's or the relevant Group recipient's ability to satisfy in full and on a timely basis its obligations to ESB Finance under such loans.

RISKS RELATING TO THE NOTES

5. Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features.

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

There are particular risks associated with an investment in Index Linked Notes. In particular, an investor might receive less interest than expected or no interest in respect of such Notes and may lose some or the entire principal amount invested by it

The Issuer may issue Notes with principal or interest payable in respect of the Notes being determined by reference to an inflation index. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;

- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) they may lose all or a substantial portion of their principal;
- (v) the inflation index may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) the effect of any multiplier or leverage factor that is applied to the inflation index is that the impact of any changes in the inflation index on principal or interest payable will be magnified; and
- (vii) the timing of changes in the inflation index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in inflation index, the greater the effect on yield.

The historical experience of the relevant inflation index should not be viewed as an indication of the future performance of such inflation index during the term of any Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Notes linked to an inflation index and the suitability of such Notes in light of its particular circumstances.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than the market values of conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

Investors who purchase Notes in denominations that are not an integral multiple of the Specified Denomination may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination (as specified in the applicable Final Terms) plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the Specified Denomination may be illiquid and difficult to trade.

Notes designated as Green Bonds may not be a suitable investment for all investors seeking exposure to green assets

ESB and/or ESB Finance may issue Notes that are designated as “Green Bonds” in the relevant Final Terms. It is intended that the proceeds of the issuance of such Green Bonds will be applied towards eligible energy efficiency measures or other environmentally sustainable projects (**Green Projects**) as described in the ESB green bond framework which is published on the website of the Guarantor (available at <https://esb.ie/investors/green-financing>) (the **Green Bond Framework**). Prospective investors should have regard to the information set out in this Offering Circular, the relevant Final Terms and the Green Bond Framework regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment

in such Notes together with any other investigation such investor deems necessary. There is a risk that the use of such proceeds or terms of such Notes will not satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply whether by any present or future applicable law or regulations or by its own internal policies, governing rules or investment mandates, in particular with regard to any direct or indirect environmental impact of any funded projects.

No assurance is or can be given to investors by any Issuer or any of the Dealers that any projects or uses the subject of, or related to, any Green Projects will meet any or all investor expectations regarding such “green”, “sustainable” or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects. Furthermore, it should be noted that the definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes, a “green”, “sustainable”, “social” or an equivalently-labelled project continues to evolve (including as a result of the introduction of the EU Taxonomy (as defined below) and similar classification schemes in other jurisdictions), and such Green Projects may not reflect these developments. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Green Projects will meet any or all investor expectations regarding such “green”, “sustainable” or other equivalently-labelled performance objectives (including Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the so called EU Taxonomy) or Regulation (EU) 2020/852 as it forms part of domestic law in the United Kingdom by virtue of the EUWA) or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects.

While it is the intention of the Issuers to apply the proceeds of Green Bonds in, or substantially in, the manner described in the applicable Final Terms, there can be no assurance that the Green Projects, as the case may be, will be capable of being implemented in or substantially in such manner and/or in accordance with any applicable timing schedule and that accordingly the proceeds of the relevant Green Bonds will be totally or partially disbursed for such Green Projects. No Issuer will have a contractual obligation to apply the proceeds of Green Bonds towards Green Projects. Furthermore, there can be no assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the relevant Issuer and/or Guarantor. Any such event or failure by the relevant Issuer and/or Guarantor will not constitute an event of default under the relevant Green Bonds.

In connection with the issue of Green Bonds under the Programme, a sustainable rating agency or other institutions or persons with recognised expertise in environmental sustainability may issue an opinion or certificate (whether or not requested by the relevant Issuer or the Guarantor) on (amongst other things) general compliance of the Green Bond Framework with the Green Bond Principles as published by the International Capital Markets Association and/or the suitability of the Green Bonds as an investment in connection with certain environmental and sustainability projects. No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the relevant Issuer and/or Guarantor) which may be made available in connection with the issue of any Notes and in particular with any Green Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Offering Circular. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the relevant Issuer, the Dealers or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as at the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. In addition, although the relevant Issuer and/or the Guarantor may agree at the time of issue of any Green Bonds to certain reporting and use of proceeds obligations it would not be an event of default under the relevant Notes if the relevant Issuer and/or the Guarantor fails to comply with such obligations.

In the event any Notes are listed or admitted to trading on any dedicated ‘green’, environmental sustainable or any other equivalently labelled segment of any stock exchange or securities market (whether or not regulated) no representation or assurance is given by the relevant Issuer, the Dealers or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses of funds. No representation or assurance is given or made by the relevant Issuer and/or the Guarantor or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

Any such event or failure to apply the proceeds of any issue of Notes for any Green Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the relevant Issuer or the Guarantor is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any cessation of the listing or admission to trading of such Green Bonds on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

None of the Dealers will verify or monitor the proposed use of proceeds of Notes issued under the Programme.

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks" (including EURIBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have an adverse effect on any Notes linked to or referencing such a "benchmark".

Regulation (EU) 2016/1011 (the **EU Benchmarks Regulation**) applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, (i) it requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) it prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the EUWA (the **UK Benchmarks Regulation**) among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation could have a material impact on any Notes linked to or referencing a "benchmark", in particular, if the methodology or other terms of the relevant "benchmark" are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant "benchmark".

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

The euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

Such factors may have the following effects on certain "benchmarks" (including EURIBOR): (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark"; or (iii) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have an adverse effect on the value of and return on any Notes linked to or referencing the relevant "benchmark".

The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could require or result in adjustment to the interest calculation provisions of the Terms and Conditions applicable to Floating Rate Notes (as described in Condition 4.7 (*Benchmark Replacement*)) or result in adverse consequences to holders of any Notes linked to such benchmark. Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities based on the same benchmark.

Condition 4.7 (*Benchmark Replacement*) provides that, if the Issuer (in consultation with the Principal Paying Agent or such other person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and Interest Amount(s)) determines that a Benchmark Event (as defined in the Conditions) has

occurred, the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the purposes of determining a Successor Rate or an Alternative Reference Rate (each as further described in Condition 4.7 (*Benchmark Replacement*)) and, in either case, an Adjustment Spread (which may be positive, negative or zero). Such fallback arrangements may include amendments to the conditions of the Notes. If the Issuer is unable to appoint an Independent Adviser or if the Independent Adviser cannot determine the Successor Rate or Alternative Reference Rate, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period (which may be the initial Rate of Interest) (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period for which the Rate of Interest was determined, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period). This may result in effective application of a fixed rate of interest for Notes initially designated to be Floating Rate Notes. In addition, due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

The use of a Successor Rate or an Alternative Reference Rate may result in interest payments that are substantially lower than or that do not otherwise correlate over time with the payments that could have been made on the Notes if the relevant benchmark remained available in its current form. In addition, while any Adjustment Spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of the Adjustment Spread to the Notes may not do so and may result in the Notes performing differently (which may include payment of a lower interest rate) than they would do if the Reference Rate were to continue to apply in its current form. Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the Issuer to meet its obligations under the Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Notes.

Investors should consider these matters when making their investment decision with respect to the relevant Notes. Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, or any of the international or national reforms, investigations and licensing issues and the possible application of the benchmark replacement provisions of Notes in making any investment decision with respect to the Notes linked to a “benchmark”.

6. Risks related to the terms of all Notes

The conditions of the Notes contain provisions which may permit their modification without the consent of all investors and confer significant discretions on the Trustee which may be exercised without the consent of the Noteholders and without regard to the individual interests of particular Noteholders

The conditions of the Notes contain provisions for calling meetings of Noteholders (including by way of audio or videoconference call) to consider and vote upon matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The conditions of the Notes also provide that the Trustee may, without the consent of Noteholders and without regard to the interests of particular Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such or (iii) the substitution of another company as principal debtor under any Notes in place of the relevant Issuer, in the circumstances described in Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*). In addition, Condition 14 (*Meetings of Noteholders, Modification, Waiver and Substitution*) provides that the Trustee shall be obliged to use its reasonable endeavours to effect any Benchmark Amendments on the terms and subject to the conditions as set out in Condition 4.7 (*Interest – Benchmark Replacement*) without the consent or approval of Noteholders or Couponholders.

The consequences of any such determinations by a defined majority of the Noteholders and/or the Trustee could adversely affect the market value of the Notes and/or the return on the Notes.

7. Risks related to the market generally

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Notes

Notes may have no established trading market when issued, and one may never develop. If a market for the Notes does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

If an investor holds Notes which are not denominated in the investor's home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes and the Guarantor will make payments under the Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or the Guarantor to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

Credit ratings assigned to the Issuer, the Guarantor or any Notes may not reflect all the risks associated with an investment in those Notes

One or more independent credit rating agencies may assign credit ratings to the Issuer, the Guarantor or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

ESB is currently rated by S&P and Moody's (see the sub-section entitled "Rating" in the section of this Offering Circular entitled "Overview of the Programme").

The methodology employed by each of S&P and Moody's to ascribe credit ratings to state-owned energy utilities such as ESB may change from time to time. Relevant factors within such methodology may include, without limitation, the sovereign rating of the relevant state. Accordingly, for so long as ESB remains majority owned by the Government of Ireland, any downgrading of Ireland's sovereign credit rating may contribute towards, or result in, a corresponding downgrading of ESB's credit rating.

There can be no assurance that the credit rating agencies will maintain ESB's current credit ratings or outlooks. A failure to maintain favourable credit ratings or outlooks could increase ESB's cost of funding, adversely affect ESB's interest margins, and reduce its ability to secure both long-term and short-term funding. The occurrence of any of these events could have a material adverse effect on ESB's operations, financial condition and prospects.

FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will be initially issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Final Terms, a permanent global note (a **Permanent Global Note** and, together with a Temporary Global Note, each a **Global Note**) which, in either case, will:

- (i) if the Global Notes are intended to be issued in new global note (NGN) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking S.A. (**Clearstream, Luxembourg**); and
- (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification to the effect that the beneficial owners of interests in the Temporary Global Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Global Note of the same Series or (ii) for definitive Notes of the same Series with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in Condition 9 (*Events of Default and Enforcement*)) has occurred and is continuing, or (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Trustee is available. The relevant Issuer will promptly give notice to Noteholders in accordance with Condition 13 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) or the Trustee may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Notes (other than Temporary Global Notes) and on all interest coupons relating to such Notes where TEFRA D is specified in the applicable Final Terms:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Notes or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

General

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

No Noteholder or Couponholder shall be entitled to proceed directly against the relevant Issuer, or as the case may be, the Guarantor unless the Trustee, having become bound so to proceed, fails or is unable so to do within 60 days and the failure or inability shall be continuing.

APPLICABLE FINAL TERMS

NOTES WITH A DENOMINATION OF €100,000 (OR ITS EQUIVALENT IN ANY OTHER CURRENCY) OR MORE

[Set out below is the form of Final Terms which will be completed for each Tranche of Notes issued under the Programme (1) with a denomination of at least EUR 100,000 (or its equivalent in another currency) and/or (2) that are to be admitted to trading only on a regulated market, or a specific segment of a regulated market, to which only qualified investors (as defined in the Prospectus Regulation) have access.]¹

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the **Prospectus Regulation**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]²

[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act (**EUWA**); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]³

4. INTEREST

4.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 4.1:

- (a) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (b) if “30/360” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In the Conditions:

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

4.2 Interest on Floating Rate Notes and Index Linked Interest Notes

(a) Interest Payment Dates

Each Floating Rate Note and Index Linked Interest Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In the Conditions, **Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 4.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, **Business Day** means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre specified in the applicable Final Terms; and
- (b) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (ii) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the **TARGET2 System**) is open.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Final Terms.

In respect of Floating Rate Notes, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being EURIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (Brussels time) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Rate of Interest cannot be determined because of the occurrence of a Benchmark Event, the Rate of Interest shall be calculated in accordance with the terms of Condition 4.7.

(c) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

Unless otherwise stated in the applicable Final Terms the Minimum Rate of Interest shall be deemed to be zero.

(d) Determination of Rate of Interest and calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Index Linked Interest Notes, the Calculation Agent will notify the Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes or Index Linked Interest Notes (subject to Conditions 4.6 and 4.7 where applicable) for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes or Index Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or
- (B) in the case of Floating Rate Notes or Index Linked Interest Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note or an Index Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount

and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 4.2:

- (i) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (iii) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (v) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (vi) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30;

- (vii) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(e) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent shall determine such rate at such time and by reference to such sources as the Issuer or an expert appointed by it in its absolute discretion determines appropriate.

Designated Maturity means the period of time designated in the Reference Rate.

(f) Notification of Rate of Interest and Interest Amounts

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if the Issuer is ESB Finance), the Trustee and any stock exchange on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 (*Notices*) as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed and to the Noteholders in accordance with Condition 13 (*Notices*). For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(g) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4.2, whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of manifest error) be binding on the Issuer, the Guarantor (if the Issuer is ESB Finance), the Agent, the Calculation Agent (if applicable), the other Paying Agents, the Trustee and all Noteholders and Couponholders and (in the absence of wilful default and bad faith) no liability to the Issuer, the Guarantor (if the Issuer is ESB Finance), the Trustee, the Noteholders or the Couponholders shall attach to the Agent or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

4.3 Accrual of interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of

principal is improperly withheld or refused. In such event, interest will continue to accrue as provided in the relevant Trust Deed.

4.4 Indexation

In the case of Index Linked Interest Notes or Index Linked Redemption Notes, the following provisions of Condition 4.4 shall apply.

(a) Indexation of interest and principal

If the Notes are specified as Index Linked Interest Notes in the applicable Final Terms, each payment of interest in respect of the Notes shall be calculated by reference to the Rate of Interest multiplied by the Index Ratio or Limited Index Ratio, in the case of Limited Index Linked Notes, applicable to the date on which such payment falls to be made and rounded to six decimal places (0.0000005 being rounded upwards).

If the Notes are specified as Index Linked Redemption Notes in the applicable Final Terms, the Final Redemption Amount payable pursuant to Condition 6.1 and the Early Redemption Amount or, as the case may be, the Optional Redemption Amount or Make-Whole Redemption Amount, payable pursuant to Conditions 6.2, 6.3, 6.4, 6.5, 6.6 or 9 shall be the Final Redemption Amount or Early Redemption Amount or Optional Redemption Amount or Make-Whole Redemption Amount (as the case may be) multiplied by the Index Ratio or Limited Index Ratio, in the case of Limited Index Linked Notes, applicable to the date on which the Final Redemption Amount or the Early Redemption Amount or Optional Redemption Amount or Make-Whole Redemption Amount (as the case may be) becomes payable together with accrued interest, subject to the Minimum Index Redemption Amount and the Maximum Index Redemption Amount specified in the applicable Final Terms.

Payments of principal in respect of Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will not be linked to an index composed by either Issuer.

The Calculation Agent will calculate such Final Redemption Amount or Early Redemption Amount or Optional Redemption Amount or Make-Whole Redemption Amount (as the case may be) as soon as practicable after each time such amount is capable of being determined and will notify the Agent thereof as soon as practicable after calculating the same. The Agent will as soon as practicable thereafter notify the Issuer and any stock exchange on which the Notes are for the time being listed thereof and cause notice thereof to be published in accordance with Condition 13 (*Notices*).

(b) Definitions

For the purposes of these Conditions:

Any reference to the **Index Figure applicable** to a particular Calculation Date shall, subject as provided in Condition 4.5 below;

- (i) if the applicable Final Terms specify that interpolation will apply, be calculated in accordance with the following formula:

$$\frac{IF_{m-y} + (\text{Day of Calculation Date} - 1) \times (IF_{m-x} - IF_{m-y})}{(\text{Days in month of Calculation Date})}$$

and rounded to five decimal places (0.000005 being rounded upwards) and where:

IF_{m-y} means the Index Figure for the first day of the month that is the number of months as specified in the applicable Final Terms (**Indexation Month Reference Period Y**) prior to the month in which the payment falls due; and

IF_{m-x} means the Index Figure for the first day of the month that is the number of months as specified in the applicable Final Terms (**Indexation Month Reference Period X**) prior to the month in which the payment falls due; or

Limited Indexation Date means any date falling during the period specified in the relevant Final Terms for which a Limited Indexation Factor is to be calculated;

Limited Indexation Factor means, in respect of a Limited Indexation Month or Limited Indexation Date, as the case may be, the ratio of the Index Figure applicable to that month or date, as the case may be, divided by the Index Figure applicable to the month or date, as the case may be, the number of months prior thereto (as specified in the applicable Final Terms (Limited Indexation Month Reference Period)), provided that (a) if such ratio is greater than the Maximum Indexation Factor specified in the relevant Final Terms, it shall be deemed to be equal to such Maximum Indexation Factor and (b) if such ratio is less than the Minimum Indexation Factor specified in the applicable Final Terms, it shall be deemed to be equal to such Minimum Indexation Factor;

4.5 Change in circumstances affecting the Index

(a) Change in base

If at any time the Index is changed by the substitution of a new base for it, then with effect from and including the date on which such substitution takes effect the definition of Base Index Figure in Condition 4.4(b) shall be amended to mean the product of the then applicable Base Index Figure and the Index immediately following such substitution, divided by the Index immediately prior to such substitution.

(b) Delay in publication of the Index

- (i) If, in relation to a particular Interest Period or to the redemption of all or some only of the Notes and otherwise than in circumstances which the Issuer certifies to the Trustee (in a certificate addressed to the Trustee and signed by two Directors of the Issuer) may fall within Condition 4.5(c) or 6.7 (notwithstanding that the Issuer may subsequently be advised that they do not fall within Condition 4.5(c) or 6.7), the Index Figure relating to any month (the **calculation month**) which is required to be taken into account for the purposes of the

determination of the Index Figure for any date is not published on or before the fourteenth day before the date on which such payment is due (the **date for payment**), the Issuer shall appoint an Expert and the Index Figure for the relevant calculation month shall be the substitute index figure (if any) as is published by the government department responsible for the publication of such index for the purposes of indexation of payments on the Reference Gilt or, failing such publication, on any one or more of Sovereign's index-linked stocks, as determined by the Expert; or

- (ii) if no such determination is made by the Expert within seven days, the Index Figure last published before the date for payment.

Where the provisions of this Condition 4.5(b) apply, the certificate of the Issuer (signed by two Directors), acting on the advice of an Expert, as to the Index Figure applicable to the date for payment falls shall be conclusive and binding upon the Issuer, the Guarantor (if the Issuer is ESB Finance), the Trustee and the Noteholders and Couponholders. If a substitute index is published as specified in 4.5(b)(i) above, a determination made based on that index shall be final and no further payment by way of adjustment shall be made, notwithstanding that the Index Figure applicable to the date for payment may subsequently be published. If no substitute index is so published and the Index relating to the date for payment is subsequently published then:

- (A) in the case of any Note not falling due for redemption on the date for payment, if the Index Figure so subsequently published (if published while that Note remains outstanding) is greater or less than the Index Figure applicable by virtue of 4.5(b)(ii) above, the interest payable on that Note on the Interest Payment Date next succeeding the date of such subsequent publication shall be increased or reduced to reflect the amount by which the interest payable on that Note on the date for payment on the basis of the Index Figure applicable by virtue of 4.5(b)(ii) above fell short of, or (as the case may be) exceeded the interest which would have been payable on that Note if the Index Figure subsequently published had been published on or before the second business day before the date for payment; or
- (B) in the case of any Note falling due for final redemption on the date for payment, no subsequent adjustment to amounts paid will be made.

(c) Cessation of or fundamental changes to the Index

If the Index ceases to be published or any changes are made to it which, in the opinion of an Expert, constitute a fundamental change in the rules governing the Index and the change would, in the opinion of the Expert, be detrimental to the interests of the Issuer or the Noteholders and if, within 30 days after its appointment (or such longer period as the Trustee may consider reasonable), the Expert recommends for the purposes of the Notes one or more adjustments to the Index or a substitute index (with or without adjustments), then provided that such adjustments or substitute index (as the case may be) are not materially detrimental (in the opinion of the Expert) either to the interests of the Issuer or the interests of the Noteholders, as compared to the interests of the Issuer and the Noteholders (as the case may be) as they would have been had the Index continued to be published or such fundamental change in the rules governing the Index not been made, the Index shall be adjusted as so recommended or (as the case may be) shall be replaced by the substitute index so recommended (as so adjusted, if so recommended) and references in these Conditions to the Index shall be construed accordingly and the Issuer shall notify the Noteholders of the adjustments to the Index or the introduction of the substitute index (with or without adjustments) in accordance with Condition 13 (*Notices*).

If any payment in respect of the Notes is due to be made after the cessation or changes referred to in the preceding paragraph but before any such adjustment to, or replacement of, the Index takes effect, the Issuer shall (if the Index Figure applicable (or deemed applicable) to the date for payment is not available in accordance with the provisions of Condition 4.4) make a provisional payment on the basis that the Index Figure applicable to the date for payment is the Index last published. In that event or in the event of any payment on the Notes having been made on the basis of an Index deemed applicable under Condition 4.5(b)(i) above (also referred to below as a **provisional payment**) and in either such case in the event of the Trustee on the advice of the Expert subsequently determining that the relevant circumstances fall within this Condition 4.5(c), then:

- (i) except in the case of a payment on redemption of the Notes, if the sum which would have been payable if such adjustments or such substitute index had been in effect on the due date for such provisional payment is greater or less than the amount of such provisional payment, the interest

payable on the Notes on the Interest Payment Date next succeeding the last date by which the Issuer and Trustee receive such recommendation shall be increased or reduced to reflect the amount by which such provisional payment of interest fell short of, or (as the case may be) exceeded, the interest which would have been payable on the Notes if such adjustments or such substituted index had been in effect on that date; or

- (ii) in the case of a payment of principal or interest on redemption of the Notes, no subsequent adjustment to amounts paid will be made.

(d) Trustee

The Trustee shall be entitled to assume that no cessation of or change to the Index has occurred until informed otherwise by the Issuer and shall have no obligation to monitor any Index or to check any calculations made pursuant to this Condition and will not be responsible for identifying or appointing an Expert save as provided in these Conditions.

4.6 Adjustment of Rate of Interest for Fixed Rate Notes and Floating Rate Notes

If Ratings Step-up/Step-down is specified as being applicable in the applicable Final Terms, the following terms relating to the Rate of Interest for the Notes shall apply:

- (i) The Rate of Interest payable on the Notes will be subject to adjustment from time to time in the event of a Step Up Rating Change or Step Down Rating Change as the case may be in accordance with the following provisions.
- (ii) Subject to Conditions 4.6(iv) and (vii) below, from and including the first Interest Payment Date following the date of a Step Up Rating Change, if any, the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) payable on the Notes shall be increased by the Step Up Margin specified in the applicable Final Terms.
- (iii) Subject to Conditions 4.6(iv) and (vii) below, in the event of a Step Down Rating Change following a Step Up Rating Change, with effect from and including the first Interest Payment Date following the date of such Step Down Rating Change, the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) payable on the Notes shall be decreased by the Step Up Margin back to the initial Rate of Interest (in the case of Fixed Rate Notes) or the initial Margin (in the case of Floating Rate Notes).
- (iv) If a Step Up Rating Change and, subsequently, a Step Down Rating Change occur during the same Fixed Interest Period (in the case of Fixed Rate Notes) or the same Interest Period (in the case of Floating Rate Notes), the Rate of Interest (in the case of Fixed Rate Notes) or the Margin (in the case of Floating Rate Notes) payable on the Notes shall be neither increased nor decreased as a result of either such event.
- (v) The Issuer shall use all reasonable efforts to maintain credit ratings for the Notes from both Rating Agencies. If, notwithstanding such reasonable efforts, either Rating Agency fails to or ceases to assign a credit rating to the Notes, and at such time Fitch has assigned a credit rating to the Notes, then references in this Condition 4.6 to Moody's or S&P, as the case may be, or the credit ratings thereof, shall be to Fitch or, as the case may be, the equivalent credit ratings thereof. If at such time, Fitch has not assigned a credit rating to the Notes, the Issuer shall use all reasonable efforts to obtain a credit rating of the Notes from a substitute rating agency that shall be a Statistical Rating Agency, and references in this Condition 4.6 to Moody's or S&P, as the case may be, or the credit ratings thereof, shall be to such substitute rating agency or, as the case may be, the equivalent credit ratings thereof.
- (vi) The Issuer, failing which the Guarantor, will, on the occurrence of a Step Up Rating Change or a Step Down Rating Change giving rise to an adjustment to the Rate of Interest payable on the Notes pursuant to this Condition 4.6, notify to the Trustee, the Principal Paying Agent, the Noteholders and any stock exchange on which the Notes for the time being are listed and publish the applicable notice in accordance with Condition 13 (*Notices*) as soon as reasonably practicable after the occurrence of such Step Up Rating Change or Step Down Rating Change, but in no event later than the fifth London Business Day thereafter.
- (vii) A Step Up Rating Change (if any) and a Step Down Rating Change (if any), may only occur once each during the term of the Notes.
- (viii) If the rating designations employed by Moody's or S&P are changed from those which are described in this Condition, the Issuer or the Guarantor shall determine, with the agreement of the Trustee (such agreement not to be unreasonably withheld or delayed) the rating designations

of Moody's or S&P as are most equivalent to the prior rating designations of Moody's or S&P, as the case may be.

For the purposes of this Condition 4.6:

Fitch means Fitch Ratings Ltd. or its successor;

Investment Grade means, in the case of a credit rating assigned by Moody's, Baa3 or higher and, in the case of a credit rating assigned by S&P, BBB- or higher or the equivalent credit rating assigned by a Statistical Rating Agency, if applicable;

Moody's means Moody's Investors Service Limited, or its successor;

Rating Agency means either Moody's or S&P and Rating Agencies means both of them;

S&P means S&P Global Ratings Europe Limited, or its successor;

Statistical Rating Agency means Fitch or such other rating agency or their respective successors as may be proposed by the Issuer and approved by the Trustee, such approval not to be unreasonably withheld or delayed;

A Step Down Rating Change occurs where after a Step Up Rating Change, both Rating Agencies publicly announce that the credit rating assigned to the Notes is Investment Grade, provided that, for the purposes of this definition, where:

- (i) both Rating Agencies do not make the public announcements on the same date, the Step Down Rating Change shall be deemed to occur on the date of the later public announcement; and
- (ii) a Rating Agency had not downgraded the Notes below Investment Grade, then written confirmation from such Rating Agency that the then current rating assigned to the Notes is Investment Grade shall be deemed to be a public announcement, made on the date of such confirmation, that the credit rating assigned to the Notes by such Rating Agency is Investment Grade.

For the avoidance of doubt, any further increase in the credit rating of the Notes above Investment Grade shall not constitute a Step Down Rating Change; and

Step Up Rating Change means the first public announcement by either Rating Agency or both Rating Agencies of a decrease in the credit rating assigned to the Notes to below Investment Grade. For the avoidance of doubt, any further decrease in the credit rating of the Notes below Investment Grade shall not constitute a Step Up Rating Change and the Rate of Interest on the Notes shall never be greater than the Maximum Step-up Coupon specified in the applicable Final Terms.

4.7 Benchmark Replacement

Notwithstanding the foregoing provisions in this Condition 4, if the Issuer (in consultation with the Principal Paying Agent or such other person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and Interest Amount(s)) determines that a Benchmark Event has occurred in relation to the Original Reference Rate at any time when the Conditions provide for any Rate of Interest (or any component part thereof) to be determined by reference to such Original Reference Rate, then the following provisions shall apply:

- (a) **Independent Adviser:** The Issuer shall use reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable to determine (acting in good faith) a Successor Rate, failing which, an Alternative Reference Rate and, in either case, an Adjustment Spread and any Benchmark Amendments (each as defined and as further described below) no later than 5 Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the "**IA Determination Cut-off Date**") for the purposes of determining the Rate of Interest applicable to the Notes for such next succeeding Interest Period and for all future Interest Periods (subject to the subsequent operation of this Condition 4.7 during any other future Interest Periods).
- (b) **Successor Rate or Alternative Reference Rate:** If the Independent Adviser (acting in good faith) determines that:
 - (i) there is a Successor Rate then such Successor Rate (as adjusted by the applicable Adjustment Spread as provided in Condition 4.7(c) shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent further operation of this Condition 4.7); or

- (ii) there is no Successor Rate but that there is an Alternative Reference Rate then such Alternative Reference Rate (as adjusted by the applicable Adjustment Spread as provided in Condition 4.7(c)) shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4.7).
- (c) **Adjustment Spread:** if a Successor Rate or Alternative Reference Rate is determined in accordance with Condition 4.7(b), the Independent Adviser or (if the Independent Adviser appointed by the Issuer fails to determine an Adjustment Spread) the Issuer (in consultation with the Principal Paying Agent or such other person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and Interest Amount(s) acting in good faith and in a commercially reasonable manner) shall determine an Adjustment Spread (which may be expressed as a specified quantum or a formula or methodology for determining the applicable Adjustment Spread (and, for the avoidance of doubt, an Adjustment Spread may be positive, negative or zero)), which Adjustment Spread shall be applied to the relevant Successor Rate or the relevant Alternative Reference Rate (as the case may be for each subsequent determination of a relevant Rate of Interest and Interest Amount(s) (or a component part thereof) by reference to such Successor Rate or Alternative Reference Rate (as applicable)), subject to the subsequent further operation and adjustment as provided in this Condition 4.7. If the Independent Adviser or the Issuer (as applicable) is unable to determine, no later than three business days prior to the Interest Determination Date relating to the next succeeding Interest Period, the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread.
- (d) **Benchmark Amendments:** If any Successor Rate, Alternative Reference Rate or Adjustment Spread is determined in accordance with this Condition 4.7, the Independent Adviser (acting in good faith) may determine (i) that amendments to these Conditions, the relevant Trust Deed and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Reference Rate and/or Adjustment Spread (provided that such amendments do not, without the consent of the party responsible for determining the Rate of Interest (being the Principal Paying Agent or such other party specified in the applicable Final Terms, as applicable) impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or protective provisions afforded to it) (such amendments, the "Benchmark Amendments") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 4.7(e), without any requirement for the consent or approval of Noteholders or Couponholders, vary these Conditions, the relevant Trust Deed and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, the Trustee and Principal Paying Agent shall, at the request and expense of the Issuer, agree to use their reasonable endeavours to effect such Benchmark Amendments to the relevant Trust Deed, the Agency Agreement and these Conditions, including, inter alia, by execution of a deed supplemental to the relevant Trust Deed and/or the Agency Agreement, as the Issuer determines and certifies to the Trustee and the Principal Paying Agent are required in order to give effect to this Condition 4.7 and neither the Trustee nor the Principal Paying Agent shall be liable to any party for any consequence thereof. Notwithstanding the above, neither the Trustee nor the Principal Paying Agent (as applicable) shall be obliged to agree to any Benchmark Amendments if the same would, in the sole opinion of the Trustee or the Principal Paying Agent (as applicable), expose it to any additional duties, responsibilities or liabilities or reduce or amend its rights and/or the protective provisions afforded to it in the relevant Trust Deed and/or these Conditions and/or the Agency Agreement (as applicable).

In connection with any such variation in accordance with this Condition 4.7, the Issuer shall comply with the rules of any stock exchange or other relevant authority on or by which the Notes are for the time being listed or admitted to trading.

- (e) **Notices etc.:** The Issuer shall no later than three Business Days prior to the Interest Determination Date notify the party responsible for determining the Rate of Interest (being the Principal Paying Agent or such other party specified in the applicable Final Terms, as applicable), the Trustee, the Principal Paying Agent, the Paying Agents and promptly thereafter notify, in accordance with Condition 13, the Noteholders of any Successor Rate, Alternative Reference Rate, Adjustment Spread and the specific terms of any Benchmark Amendments determined under this Condition 4.7. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any. No later than notifying the Trustee and the Principal Paying Agent of the same, the Issuer

shall deliver to the Trustee and the Principal Paying Agent a certificate signed by two Directors of the Issuer confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or Alternative Reference Rate (as applicable), (iii) any Adjustment Spread and (iv) where applicable, the terms of any Benchmark Amendments and certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Reference Rate and/or Adjustment Spread.

The Trustee and the Principal Paying Agent shall be entitled to rely on such certificate (without enquiry or liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Reference Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error in the determination of the Successor Rate or Alternative Reference Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Trustee's and the Principal Paying Agent's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Trustee, the Principal Paying Agent, the Calculation Agent, the Paying Agents and the Noteholders.

If in the opinion of the party responsible for determining the Rate of Interest (being the Principal Paying Agent or such other party specified in the applicable Final Terms, as applicable) there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 4.7, it shall promptly notify the Issuer thereof and the Issuer shall direct it in writing (which direction may be by way of a written determination of an Independent Adviser) as to which course of action to adopt. If such party is not promptly provided with such direction, or is otherwise unable to make such calculation or determination as a result of its operational requirements for implementation and operation of the determined Successor Rate, Alternative Reference Rate, any Adjustment Spread and any Benchmark Amendments, it shall notify the Issuer thereof and shall not incur any liability for any failure to make such calculation or determination which arises as a result thereof. For the avoidance of doubt, neither the Trustee nor any Agent shall be obliged to monitor or enquire whether a Benchmark Event has occurred or have any liability in respect thereof.

- (f) **Survival of Original Reference Rate:** Without prejudice to the obligations of the Issuer under this Condition 4.7, the Original Reference Rate and the fallback provisions provided for in Condition 4.2(b) will continue to apply unless and until the party responsible for determining the Rate of Interest (being the Principal Paying Agent or such other party specified in the applicable Final Terms, as applicable) has been notified of the Successor Rate or the Alternative Reference Rate (as the case may be), the applicable Adjustment Spread and Benchmark Amendments (if applicable), in accordance with Condition 4.7(e).
- (g) **Fallbacks:** If, following the occurrence of a Benchmark Event and in relation to the determination of the Rate of Interest on the immediately following Interest Determination Date, the Issuer is unable to appoint an Independent Adviser or no Successor Rate or Alternative Reference Rate (as applicable) is determined pursuant to this Condition 4.7 prior to the IA Determination Cut-Off Date and the Relevant Screen Page is no longer available for use, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period (which may be the initial Rate of Interest) (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period for which the Rate of Interest was determined, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period).

For the avoidance of doubt, this Condition 4.7 shall apply to the determination of the Rate of Interest on the relevant immediately following Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of and to adjustment as provided in, this Condition 4.7.

- (h) **Definitions:** As used in these Conditions:

Adjustment Spread means a spread (which may be positive, negative or zero) or formula or methodology for calculating a spread, which the Independent Adviser or the Issuer (as applicable), determines is required to be applied to the relevant Successor Rate or the relevant Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended, or formally provided as an option for the parties to adopt, in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Independent Adviser determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Original Reference Rate where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iii) (if no such determination has been made) the Independent Adviser (acting in good faith) determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as the case may be); or
- (iv) (if no such industry standard is recognised or acknowledged) the Independent Adviser (acting in good faith) determines to be appropriate in order to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or Alternative Reference Rate (as applicable).

Alternative Reference Rate means the rate (and related alternative screen page or source, if available) that the Independent Adviser (acting in good faith) determines in accordance with Condition 4.7 has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same Specified Currency as the Notes or, if the Independent Adviser determines that there is no such rate, such other rate as the Independent Adviser (acting in good faith) determines in its discretion is most comparable to the Original Reference Rate.

Benchmark Event means:

- (i) the Original Reference Rate has ceased to be published for a period of at least 5 Business Days or ceasing to be calculated or administered; or
- (ii) the later of (A) the making of a public statement by the administrator of the Original Reference Rate that it has ceased or that it will, on or before a specified future date, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate) and (B) the date falling six months prior to the specified date referred to in (ii)(A); or
- (iii) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been permanently or indefinitely discontinued; or
- (iv) the later of (A) the making of a public statement by the supervisor of the administrator of the Reference Rate that the relevant Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (B) the date falling six months prior to the specified date referred to in (iv)(A); or
- (v) the later of (A) the making of a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which, by a specified date, the Original Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences either generally or in respect of the Notes in each case on or before a specified date and (B) the date falling six months prior to the specified date referred to in (v)(A); or
- (vi) the later of (A) the making of a public statement by the supervisor of the administrator of the Original Reference Rate announcing that, in the view of such supervisor the Original Reference Rate is or will on or before a specified date no longer be

representative of an underlying market and (B) the date falling six months prior to the specified date referred to in (vi)(A); or

- (vii) it has or will prior to the next Interest Determination Date become unlawful for the Principal Paying Agent, the Issuer or any other person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and Interest Amount(s) to calculate any payments due to be made to any Noteholder using the Original Reference Rate (including, without limitation, under the Benchmarks Regulation (EU) 2016/1011, if applicable).

Independent Adviser means an independent financial institution of international repute or other independent financial adviser of recognised standing with relevant experience in the international debt capital markets, in each case appointed by the Issuer at its own expense. For the avoidance of doubt, an Independent Adviser appointed pursuant to this Condition 4.7 shall act in good faith as an expert and (in the absence of bad faith or fraud) shall have no liability whatsoever to the Issuer, the Trustee, the Paying Agents, the Noteholders or the Couponholders for any determination made by it pursuant to this Condition 4.7;

Original Reference Rate means the originally-specified Reference Rate used to determine the relevant Rate of Interest (or any component part thereof) in respect of any Interest Period(s) (provided that if, following one or more Benchmark Events, such originally-specified Reference Rate (or any Successor Rate or Alternative Reference Rate which has replaced it) has been replaced by a (or a further) Successor Rate or Alternative Reference Rate and a Benchmark Event subsequently occurs in respect of such Successor Rate or Alternative Reference Rate, the term "Original Reference Rate" shall include any such Successor Rate or Alternative Reference Rate);

Relevant Nominating Body means, in respect of a reference rate:

- (i) the central bank, reserve bank, monetary authority or any similar institution for the currency to which the reference rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the reference rate; or
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of:
 - (A) the central bank, reserve bank, monetary authority or any similar institution for the currency to which the reference rate relates;
 - (B) any central bank or other supervisory authority which is responsible for supervising the administrator of the reference rate;
 - (C) a group of the aforementioned central banks or other supervisory authorities; or
 - (D) the Financial Stability Board or any part thereof.

Successor Rate means the reference rate (and related alternative screen page or source, if available) that the Independent Adviser determines is a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

5. PAYMENTS

5.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 7 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 7 (*Taxation*)) any law implementing an intergovernmental approach thereto.

5.2 Presentation of definitive Notes and Coupons

Payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes, and payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A Long Maturity Note is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note. If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

5.3 Payments in respect of Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes and/or otherwise in the manner specified in the relevant Global Note, where applicable against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, whether against presentation or surrender of any Global Note or otherwise, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and/or Clearstream, as applicable and in each case such record shall be *prima facie* evidence that the payment in question has been made.

5.4 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer and the Guarantor (if the Issuer is ESB Finance) will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;

- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer and, where applicable, the Guarantor, adverse tax consequences to the Issuer or, as the case may be, the Guarantor.

5.5 Payment Day

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, Payment Day means any day which (subject to Condition 8 (*Prescription*)) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (i) in the case of Notes in definitive form only, the relevant place of presentation;
 - (ii) each Additional Financial Centre specified in the applicable Final Terms; and
- (b) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

5.6 Interpretation of principal and interest

Any reference in these Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 7 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the relevant Trust Deed;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) the Make-Whole Redemption Amount(s) (if any) of the Notes
- (f) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6.8); and
- (g) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the relevant Trust Deed.

6. REDEMPTION AND PURCHASE

6.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Index Linked Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date specified in the applicable Final Terms.

6.2 Redemption for tax reasons

Subject to Condition 6.8, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is neither a Floating Rate Note nor an Index Linked Interest Note) or on any Interest Payment Date (if this Note is either a Floating Rate Note or an Index Linked Interest Note), on giving not less than the minimum nor more than the maximum period of notice specified in the applicable Final Terms to the Trustee and the Agent and, in accordance with Condition 13 (*Notices*), the Noteholders

(which notice shall be irrevocable), if the Issuer satisfies the Trustee immediately before the giving of such notice that:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7 (*Taxation*) or (if the Issuer is ESB Finance) the Guarantor would be unable for reasons outside its control to procure payment by ESB Finance and in making payment itself would be required to pay such additional amounts, in each case as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7 (*Taxation*)) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (b) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or, as the case may be, the Guarantor would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Trustee (i) a certificate signed by two Directors of the Issuer or, as the case may be, the Guarantor stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer or, as the case may be, the Guarantor has or will become obliged to pay such additional amounts as a result of such change or amendment and the Trustee shall be entitled to accept the certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders and the Couponholders.

Notes redeemed pursuant to this Condition 6.2 will be redeemed at their Early Redemption Amount referred to in Condition 6.8 below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

6.3 Redemption at the option of the Issuer (Issuer Call)

If Issuer Call is specified as being applicable in the applicable Final Terms, the Issuer may, having given not less than the minimum nor more than the maximum period of notice specified in the applicable Final Terms to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed (the **Redeemed Notes**) will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption and (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 (*Notices*) not less than 15 days prior to the date fixed for redemption.

6.4 Redemption at the option of the Issuer (Make-Whole Redemption by the Issuer)

If Make-Whole Redemption by the Issuer is specified as being applicable in the applicable Final Terms, the Issuer may, having given not less than the minimum nor more than the maximum period of notice specified in the applicable Final Terms to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption (the **Make-Whole Redemption Date**)), redeem all or some only of the Notes then outstanding (other than any such Note in respect of which an Optional Redemption Date pursuant to Condition 6.5 or Event Risk Put Date pursuant to Condition 6.6 occurs prior to the relevant Make-Whole Redemption Date) at a redemption price per Note (the **"Make-Whole Redemption Amount"**) equal to the higher of the following, in each case together with, if applicable, interest accrued to (but excluding) the relevant Make-Whole Redemption Date:

- (a) the nominal amount of the Note; and

- (b) the sum of the then current values of the remaining scheduled payments of principal and interest (not including any interest accrued but unpaid on the Notes to, but excluding, the Make-Whole Redemption Date) discounted to the Make-Whole Redemption Date on an annual basis (based on the Day Count Fraction specified in the applicable Final Terms) at (i) the Euro Make-Whole Redemption Rate (as defined below), in the case of the Notes denominated in euro; (ii) the Gross Redemption Yield (as defined below), in the case of the Notes denominated in Sterling; or (iii) the Make-Whole Redemption Rate (as defined below), in the case of the Notes denominated in any currency other than euro or Sterling, plus in each case any applicable Discount Margin specified in the applicable Final Terms, in each case as determined by the Reference Dealers or the Determination Agent, as applicable.

Any notice of redemption given under the above paragraph will, in respect of the Notes to which it relates, override any notice of redemption given (whether previously, on the same date, or subsequently) under Condition 6.2 or Condition 6.3. Any such redemption must be of a nominal amount not less than the Minimum Make-Whole Redemption Amount and not more than the Maximum Make-Whole Redemption Amount specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Redeemed Notes will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption and (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 (Notices) not less than 15 days prior to the date fixed for redemption.

For the purposes of this Condition 6.4:

6.5 Redemption at the option of the Noteholders (Investor Put)

If Investor Put is specified as being applicable in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 13 (*Notices*) not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms, the Issuer will, upon the expiry of such notice, redeem such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of any Paying Agent at any time during normal business hours of such Paying Agent falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent (a **Put Notice**) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice to the Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary or common safekeeper, as the case may be, for them to the Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and, if this Note is represented by a Global Note, at the same time present or procure the presentation of the relevant Global Note to the Agent for notation accordingly.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg given by a holder of any Note pursuant to this Condition 6.5 shall be irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and the Trustee has declared the Notes to be due and payable pursuant to Condition 9 (*Events of Default and Enforcement*), in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition 6.5 and instead to declare such Note forthwith due and payable pursuant to Condition 9 (*Events of Default and Enforcement*).

6.6 Redemption as a result of a Change of Control of the Issuer

An **Event Risk Put Event** will occur if, while any of the Notes remains outstanding (as defined in the relevant Trust Deed) a Change of Control Event occurs and during the Change of Control Period either:

- (i) a Ratings Downgrade occurs; or
- (ii) if at the time of the commencement of the Change of Control Period the Notes do not carry a credit rating from a Rating Agency, the relevant Issuer is unable to obtain an investment grade rating from any Rating Agency before the end of the Change of Control Period.

Further, if at the time of the commencement of the Change of Control Period the Notes carry a non-investment grade credit rating (as described below) from any Rating Agency, an Event Risk Put Event will be deemed to occur upon the occurrence of a Change of Control Event alone.

If an Event Risk Put Event occurs (unless the Issuer has given notice under Condition 6.2 (*Redemption for tax reasons*), Condition 6.3 (*Redemption at the option of the Issuer (Issuer Call)*) or Condition 6.4 (*Redemption at the option of the Issuer (Make-Whole Redemption by the Issuer)*) in respect of all of the Notes then outstanding):

- (a) the Issuer shall, within 10 Dublin Business Days after the occurrence of such Event Risk Put Event, and at any such time upon the Trustee becoming similarly so aware the Trustee may, and if so requested by the holders of at least one-fifth in nominal amount of the Notes then outstanding or if so directed by Extraordinary Resolution of the Noteholders, shall (subject in each case to being indemnified and/or secured and/or prefunded to its satisfaction), give notice (an **Event Risk Put Event Notice**) to the Noteholders in accordance with Condition 13 (*Notices*) specifying the nature of the Event Risk Put Event and the procedure for exercising the option contained in this Condition 6.6; and
- (b) the holder of each Note will have the option to require the Issuer to redeem or, at the relevant Issuer's option, purchase (or procure the purchase of) that Note on the Event Risk Put Date (as defined below) at its Early Redemption Amount, together with any interest accrued up to (but excluding) the Event Risk Put Date.

To exercise the right to require redemption of the Notes following an Event Risk Put Event, the holder of the Notes must, if the Notes are in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of any Paying Agent at any time during normal business hours of such Paying Agent on any Business Day falling within the Event Risk Put Period, deliver a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent (an **Event Risk Put Notice**) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition. If the Notes are in definitive bearer form, the Event Risk Put Notice must be accompanied by the Notes (together with all Coupons appertaining thereto maturing after the Event Risk Put Date), or evidence satisfactory to the Paying Agent concerned that the Notes (and such Coupons) will, following delivery of the Event Risk Put Notice, be held to its order or under its control.

If the Notes are represented by a Global Note or are in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of the Notes following an Event Risk Put Event the holder of the Notes must, within the Event Risk Put Period, give notice to the Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear and Clearstream, Luxembourg, or any common depository or common safekeeper, as the case may be, for them to the Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and, if the Notes are represented by a Global Note and the terms of such Global Note so provide, at the same time present or procure the presentation of the relevant Global Note to the Agent for notation accordingly.

The Issuer shall redeem or, at the option of the Issuer, purchase (or procure the purchase of) the relevant Notes on the Event Risk Put Date at their principal amount, together with any interest accrued up to (but excluding) the Event Risk Put Date unless previously redeemed or purchased.

If 80 per cent. or more in nominal amount of the Notes originally issued have been redeemed or purchased and cancelled pursuant to the provisions of this Condition 6, the Issuer may, on not less than 30 or more than 60 days' notice to the Noteholders given within 30 days after the Event Risk Put Date, redeem the remaining Notes as a whole at a redemption price of the principal amount thereof plus interest accrued to but excluding the date of such redemption.

If the rating designations employed by Moody's, Fitch and S&P are changed from those which are described within the applicable definition of Ratings Downgrade (below), or if a rating is assigned by another Rating Agency, the Issuer shall determine, with the agreement of the Trustee the rating designations of Moody's, Fitch and S&P or such other Rating Agency (as appropriate) as are most equivalent to the prior rating designations of Moody's, Fitch and S&P and this Condition shall be construed accordingly.

The Trustee is under no obligation to ascertain whether an Event Risk Put Event or any event which would lead to the occurrence of or could constitute an Event Risk Put Event has occurred and, until it shall have actual knowledge or notice pursuant to the relevant Trust Deed to the contrary, the Trustee may assume that no Event Risk Put Event or other such event has occurred.

Where the definitions within this Condition 6.6 state that the Issuer will seek to obtain a rating from a Rating Agency, the Issuer undertakes that it will make all reasonable endeavours to seek a rating in respect of the Notes from a Rating Agency either prior to or not later than the timeframe as specified.

For the purpose of these Conditions:

A **Change of Control Event** shall occur if the Government of Ireland ceases, directly or indirectly (through any government agency or political subdivision thereof or otherwise), to have Control of ESB;

Change of Control Period means the period:

- (a) commencing on the date that is one Business Day before the earlier of (a) the date of the relevant Change of Control Event and (b) the date of the earliest Relevant Potential Change of Control Announcement (if any); and
- (b) ending 90 days after the date of the Change of Control Event or such longer period for which the Notes are under consideration by a Rating Agency for rating or rating review (such consideration having been announced publicly within the period ending 90 days after the date of the Change of Control Event and such period not to exceed 60 days after the public announcement of such consideration);

Control of ESB means the right, by virtue of holding shares in ESB or otherwise, or by virtue of any contract or other arrangement with any holder of shares in such body corporate, to exercise or control the exercise of more than 50 per cent. of the total voting rights conferred upon the holders of the entire capital stock for the time being of ESB;

Dublin Business Day means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Dublin;

Event Risk Put Date means the date falling seven days after the expiry of the Event Risk Put Period;

Event Risk Put Period means the period of 45 days after an Event Risk Put Event Notice is given;

Rating Agency means **Moody's**, **Fitch** or **S&P** (each as defined in Condition 4.6 above), or their respective successors, replacements or substitutes;

Ratings Downgrade means, with respect to a Rating Agency and a Change of Control Event, immediately prior to the commencement of the relevant Change of Control Period, such Rating Agency rated the Notes as investment grade (being at or above Baa3, BBB- or BBB- for Moody's, Fitch and S&P respectively, or its respective equivalent for the time being), or, in the case of a Rating Agency which had not assigned a rating to the Notes immediately prior to the commencement of the relevant Change of Control Period, such Rating Agency assigns an investment grade rating to the Notes during the relevant Change of Control Period, and during such Change of Control Period:

- (a) such Rating Agency rates the Notes as non-investment grade (being at or below Ba1, BB+ or BB+ for Moody's, Fitch and S&P respectively, or its respective equivalent for the time being) and such rating is not within such Change of Control Period restored to an investment grade rating by such Rating Agency or replaced by an investment grade rating of another Rating Agency, or
- (b) such Rating Agency withdraws its rating of the Notes and that rating is not within such Change of Control Period replaced by an investment grade rating of another Rating Agency,

and in each case such Rating Agency publicly announces or confirms in writing to the Issuer, the Guarantor (if the Issuer is ESB Finance) or the Trustee that such non-investment grade rating or withdrawal of rating was the result, in whole or in part, of any event or circumstance comprised in or arising as a result of, or in respect of, the applicable Change of Control Event (whether or not such Change of Control Event shall have occurred at the time such rating is given or rating is withdrawn); and

Relevant Potential Change of Control Announcement means any formal public announcement or statement by or on behalf of ESB or the Government of Ireland relating to any potential Change of Control Event where, within 180 days of the date of such announcement or statement, a Change of Control Event occurs.

6.7 Redemption for Indexation Reasons

In the case of Index Linked Interest Notes or Index Linked Redemption Notes:

- (a) if the Index ceases to be published or any changes are made to it which, in the opinion of an Expert, constitute a fundamental change in the rules governing the Index and the change would, in the opinion of the Expert, be detrimental to the interests of the Noteholders and if the Expert fails within 30 days after its appointment (or such longer period as the Trustee considers reasonable), or states to the Issuer and the Trustee that it is unable, to recommend for the purposes of the Notes any adjustments to the Index or any substitute index (with or without adjustments) as described in Condition 4.5(c), the Issuer shall, within 14 days after the expiry of such period or (as the case may be) after the date of such statement, give notice (which shall be irrevocable and shall state the date fixed for redemption which shall be not more than 15 days after the date on which the notice is given) to redeem the Notes then outstanding, at a price equal to their principal amount multiplied by the Index Ratio (or Limited Index Ratio in the case of Limited Index Linked Notes), applicable to the date on which the date fixed for redemption falls, together with accrued interest, subject to the

Minimum Index Redemption Amount and Maximum Index Redemption Amount specified in the applicable Final Terms; or

- (b) if the Index ceases to be published or any changes are made to it which, in the opinion of an Expert, constitute a fundamental change in the rules governing the Index and the change would, in the opinion of the Expert, be detrimental to the interests of the Issuer and if the Expert fails within 30 days after its appointment (or such longer period as the Trustee considers reasonable), or states to the Issuer and the Trustee that it is unable, to recommend for the purposes of the Notes any adjustments to the Index or any substitute index (with or without adjustments) as described in Condition 4.5(c), the Issuer may at its option, within 14 days after the expiry of such period or (as the case may be) after the date of such statement, give notice (which shall be irrevocable and shall state the date fixed for redemption which shall be not more than 15 days after the date on which the notice is given) to redeem the Notes then outstanding, at a price equal to their principal amount multiplied by the Index Ratio or Limited Index Ratio (in the case of Limited Index Linked Notes) applicable to the date on which the date fixed for redemption falls, together with accrued interest, subject to the Minimum Index Redemption Amount and Maximum Index Redemption Amount specified in the applicable Final Terms.

6.8 Early Redemption Amounts

Subject to Condition 4.4(a) which applies to Index Linked Redemption Notes, for the purpose of Conditions 6.2 and 6.6 above and Condition 9 (*Events of Default and Enforcement*):

- (a) each Note (other than a Zero Coupon Note) will be redeemed at its Early Redemption Amount; and
- (b) each Zero Coupon Note will be redeemed at an amount (the **Amortised Face Amount**) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

RP means the Reference Price;

AY means the Accrual Yield expressed as a decimal; and

^y is the Day Count Fraction specified in the applicable Final Terms which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360 or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365).

6.9 Purchases

The Issuer, the Guarantor (where the Issuer is ESB Finance) or any of their respective Subsidiaries may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. All Notes so purchased will be surrendered to a Paying Agent for cancellation.

6.10 Cancellation

All Notes which are redeemed, or purchased pursuant to Condition 6.9, will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to Condition 6.9 above (together with all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be reissued or resold.

6.11 Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 6.1, 6.2, 6.3, 6.4, 6.5 or 6.6 above upon its becoming due and repayable as provided in Condition 9 (*Events of Default and Enforcement*) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in

Condition 6.8 above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Agent or the Trustee and notice to that effect has been given to the Noteholders in accordance with Condition 13 (*Notices*).

7. TAXATION

All payments in respect of the Notes and Coupons by or on behalf of the Issuer or the Guarantor (where the Issuer is ESB Finance) will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer, or as the case may be, the Guarantor (where the Issuer is ESB Finance) will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes or Coupons after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Note or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 5.5); or
- (c) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a Member State of the European Union.

As used herein:

- (i) **Tax Jurisdiction** means Ireland or any political subdivision or any authority thereof or therein having power to tax; and
- (ii) the **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Trustee or the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13 (*Notices*).

8. PRESCRIPTION

The Notes and Coupons will become void unless presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 7 (*Taxation*)) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 5.2 or any Talon which would be void pursuant to Condition 5.2.

9. EVENTS OF DEFAULT AND ENFORCEMENT

9.1 Events of Default

If any one or more of the following events (each an **Event of Default**) shall occur and be continuing the Trustee at its discretion may, and if so requested in writing by the holders of at least one-fifth in principal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution shall (subject in each case to being indemnified and/or secured and/or prefunded to its satisfaction), (but in the case of the happening of any of the events described in paragraphs (b) to (d) (other than the winding up or dissolution of the Issuer or the Guarantor, if applicable), (e) to (g) and (i) inclusive below, only if the Trustee shall have certified in writing to the Issuer and, if applicable, the Guarantor that such event is, in its opinion, materially prejudicial to the interests of the Noteholders), give notice in writing to the Issuer or the Guarantor, if applicable, that each Note is, and each Note shall thereupon immediately become, due and

repayable at its Early Redemption Amount together with accrued interest as provided in the relevant Trust Deed:

- (b) if the Issuer or the Guarantor (where the Issuer is ESB Finance) fails to perform or observe any of its other obligations under the Conditions or the relevant Trust Deed and (except in any case where, in the opinion of the Trustee, the failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 days next following the service by the Trustee on the Issuer or the Guarantor (where the Issuer is ESB Finance), as the case may be, of notice requiring the same to be remedied; or
- (c) if (i) any Indebtedness for Borrowed Money (as defined below) of the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries is declared due and repayable prematurely by reason of an event of default (however described); (ii) the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries fails to make any payment in respect of any Indebtedness for Borrowed Money on the due date for payment as extended by any originally applicable grace period; (iii) any security given by the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries for any Indebtedness for Borrowed Money is enforced; or (iv) default is made by the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries in making any payment due under any guarantee and/or indemnity given by it in relation to any Indebtedness for Borrowed Money of any other person; or
- (d) if any order is made by any competent court or resolution passed for the winding up or dissolution of the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries, save for the purposes of reorganisation, amalgamation, merger, consolidation or restructuring (i) in the case of a Principal Subsidiary, whilst solvent, (ii) in the case of the Issuer or the Guarantor, on terms previously approved in writing by the Trustee or by an Extraordinary Resolution; or
- (e) if the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries ceases or threatens to cease to carry on the whole or a substantial part of its business, save for the purposes of reorganisation, amalgamation, merger, consolidation or restructuring (i) in the case of a Principal Subsidiary, whilst solvent, or (ii) in the case of the Issuer or the Guarantor, on terms previously approved in writing by the Trustee or by an Extraordinary Resolution or, the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries stops or threatens to stop payment of, or is unable to, or admits inability to, pay, its debts (or any class of its debts) as they fall due, or is deemed unable to pay its debts pursuant to or for the purposes of any applicable law, or is adjudicated or found bankrupt or insolvent; or
- (f) if (A) proceedings are initiated against the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries under any applicable liquidation, insolvency, composition, examination, reorganisation or other similar laws, or an application is made (or documents filed with a court) for the appointment of an administrative or other receiver, manager, examiner, administrator or other similar official, or an administrative or other receiver, manager, examiner, administrator or other similar official is appointed, in relation to the Issuer, the Guarantor (where the Issuer is ESB Finance) or any of ESB's Principal Subsidiaries or, as the case may be, in relation to the whole or a substantial part of the undertaking or assets of any of them, or an encumbrancer takes possession of the whole or a substantial part of the undertaking or assets of any of them, or a distress, execution, attachment, sequestration or other process is levied, enforced upon, sued out or put in force against the whole or a substantial part of the undertaking or assets of any of them and (B) in any case (other than the appointment of an administrator) is not discharged within 30 business days; or

- (h) if (where the Issuer is ESB Finance) ESB Finance ceases to be a subsidiary wholly owned and controlled, directly or indirectly, by ESB; or
- (i) if (where the Issuer is ESB Finance) the Guarantee ceases to be, or is claimed by the Issuer or the Guarantor not to be, in full force and effect; or
- (j) if any event occurs which, under the laws of any relevant jurisdiction, has or may have, in the Trustee's opinion, an analogous effect to any of the events referred to in paragraphs (d) to (i) above.

9.2 Enforcement

The Trustee may at any time, at its discretion and without notice, take such proceedings against the Issuer or the Guarantor (where the Issuer is ESB Finance) as it may think fit to enforce the provisions of the relevant Trust Deed, the Notes and the Coupons, but it shall not be bound to take any such proceedings or any other action in relation to the relevant Trust Deed, the Notes or the Coupons unless (i) it shall have been so directed by an Extraordinary Resolution or so requested in writing by the holders of at least one-fifth in principal amount of the Notes then outstanding and (ii) it shall have been indemnified and/or secured and/or prefunded to its satisfaction.

No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer or the Guarantor (where the Issuer is ESB Finance) unless the Trustee, having become bound so to proceed, fails or is unable so to do within 60 days and the failure or inability shall be continuing.

9.3 Definitions

For the purposes of the Conditions:

Indebtedness for Borrowed Money means any indebtedness (whether being principal, premium, interest or other amounts), other than Non-Recourse Indebtedness, which singularly or in the aggregate is in excess of €100,000,000 (or its equivalent in other currencies) for or in respect of any notes, bonds, debentures, debenture stock, loan stock or other securities or any borrowed money or any liability under or in respect of any acceptance or acceptance credit.

10. REPLACEMENT OF NOTES, COUPONS AND TALONS

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

11. PAYING AGENTS

The names of the initial Paying Agents and their initial specified offices are set out below. If any additional Paying Agents are appointed in connection with any Series, the names of such Paying Agents will be specified in Part B of the applicable Final Terms.

The Issuer and the Guarantor (where the Issuer is ESB Finance) are entitled, with the prior written approval of the Trustee, to vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts, provided that:

- (a) there will at all times be an Agent;
- (b) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority;
- (c) there will at all times be a Paying Agent in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; and
- (d) there will at all times be a Paying Agent in a jurisdiction other than a Tax Jurisdiction.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 5.4. Notice of any variation, termination, appointment or change in Paying Agents will be given to the Noteholders promptly by the Issuer in accordance with Condition 13 (*Notices*).

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and the Guarantor (where the Issuer is ESB Finance) and, in certain circumstances specified therein, of the Trustee and do not assume any obligation to, or relationship of agency or trust with, any Noteholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

The Issuer shall maintain the Determination Agent and the Reference Dealers only at such times when the relevant functions specified in Condition 6.4 need to be performed.

12. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 8 (*Prescription*).

13. NOTICES

All notices regarding the Notes will be deemed to be validly given if published (a) in a leading English language daily newspaper of general circulation in the United Kingdom and (b) if and for so long as the Notes are admitted to trading on, and listed on the Official List of the Irish Stock Exchange plc trading as Euronext Dublin (**Euronext Dublin**) and the guidelines of Euronext Dublin so require, filed with the Companies Announcement Office of Euronext Dublin. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the Notes are for the time being listed or by which they have been admitted to trading. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication in such newspaper(s) the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the second day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Agent through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

14. MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER AND SUBSTITUTION

14.1 Meetings of Noteholders, Modification and Waiver

The relevant Trust Deed contains provisions for convening meetings of the Noteholders (including by way of audio or video conference call) to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Coupons or any of the provisions of the relevant Trust Deed. Such a meeting may be convened by the Issuer, the Guarantor (where the Issuer is ESB Finance) or the Trustee and shall be convened by the Issuer if required in writing by Noteholders holding not less than five per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes or the Coupons or the relevant Trust Deed (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes or the Coupons), the quorum shall be one or

more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. The relevant Trust Deed provides that (i) a resolution passed at a meeting duly convened and held by a majority consisting of not less than three-fourths of votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than three-fourths in principal amount of the Notes for the time being outstanding or (iii) consents given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Trustee) by or on behalf of the holder(s) of not less than three-fourths in principal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Couponholders.

The Trustee may agree, without the consent of the Noteholders or Couponholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the relevant Trust Deed, or determine, without any such consent as aforesaid, that any Event of Default or potential Event of Default shall not be treated as such, where, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders so to do or may agree, without any such consent as aforesaid, to any modification which is of a formal, minor or technical nature or to correct a manifest error. In addition, the Trustee shall be obliged to use its reasonable endeavours to effect any Benchmark Amendments on the terms and subject to the conditions as set out in Condition 4.7 without the consent or approval of Noteholders or Couponholders. Any such modification shall be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 13 (*Notices*) as soon as practicable thereafter.

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation, determination or substitution), the Trustee shall have regard to the general interests of the Noteholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Guarantor (where the Issuer is ESB Finance), the Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 7 (*Taxation*) and/or any undertaking or covenant given in addition to, or in substitution for, Condition 7 (*Taxation*) pursuant to the relevant Trust Deed.

14.2 Substitution

The Trustee may, without the consent of the Noteholders or Couponholders agree:

- (a) with the Issuer and the Guarantor (where the Issuer is ESB Finance) to the substitution in place of the Issuer (or of any previous substitute of the Issuer under this Condition) as the principal debtor under the Notes, the Coupons and the relevant Trust Deed, of another company, being either ESB itself or another Subsidiary of ESB, or
- (b) with ESB to the substitution in place of ESB, either as Issuer or as Guarantor (or of any previous substitute of ESB in either capacity under this Condition) as the principal debtor under the Notes, the Coupons and the relevant Trust Deed, or under the Guarantee, as the case may be, of another company,

in each case subject to (i) (in the case of a substitution under (a) above of another Subsidiary of ESB) the Notes being unconditionally and irrevocably guaranteed by ESB; (ii) the Trustee being satisfied that such substitution will not be materially prejudicial to the interests of the Noteholders; and (iii) certain other conditions set out in the relevant Trust Deed being complied with.

15. INDEMNIFICATION OF THE TRUSTEE AND TRUSTEE CONTRACTING WITH THE ISSUER

The relevant Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking action unless indemnified and/or secured and/or prefunded to its satisfaction.

The relevant Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*, (a) to enter into business transactions with the Issuer, the Guarantor (where the Issuer is ESB Finance) and/or any of their Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed

by, or relating to, the Issuer, the Guarantor (where the Issuer is ESB Finance) and/or any of their Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

16. FURTHER ISSUES

The Issuer shall be at liberty from time to time without the consent of the Noteholders or the Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue and so that the same shall be consolidated and form a single Series with the outstanding Notes.

17. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

In respect of any English Law Note, no person shall have any right to enforce any term or condition of such Note under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

18. GOVERNING LAW AND SUBMISSION TO JURISDICTION

18.3 Appointment of Process Agent

The Issuer and the Guarantor (where the Issuer is ESB Finance) each irrevocably appoints ESBII UK Limited at its registered office for the time being in England as its agent for service of process in any proceedings before the English courts in relation to any English Law Notes Dispute, and agrees that, in the event of ESBII UK Limited being unable or unwilling for any reason so to act, it or they will immediately appoint another person approved by the Trustee as its agent for service of process in England in respect of any English Law Notes Dispute.

The Issuer and the Guarantor (where the Issuer is ESB Finance) each agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.

USE OF PROCEEDS

Subject to (a) and (b) below, the net proceeds from each issue of Notes will be applied by the relevant Issuer for its general corporate purposes, which include making a profit.

If, in respect of an issue of Notes:

- (a) which are derivative securities for the purposes of Annex 17 of Commission Delegated Regulation (EU) 2019/980, there is a particular identified use of proceeds, such purposes may be more particularly described under “Reasons for the offer” in the applicable Final Terms; or
- (b) which are designated in the applicable Final Terms as “Green Bonds”, an amount equal to the net proceeds of such issuance will be applied exclusively to finance or refinance, in whole or in part, Green Projects (as defined below) which meet the Eligibility Criteria (as defined below).

ESB Green Bond Framework means the ESB green bond framework which is published on the website of ESB (available at https://cdn.esb.ie/media/docs/default-source/investor-relations-documents/esb-bond-framework-2019.pdf?sfvrsn=c6a004f0_0) as such framework may be updated from time to time.

Green Projects means those projects that are described as “Eligible Green Projects” in the ESB Green Bond Framework.

Eligibility Criteria means the eligibility criteria applicable to Green Projects as set out in the ESB Green Bond Framework.

Green Projects have been (or will be, as the case may be) selected by the relevant Issuer in accordance with the broad categorisation of eligibility for Green Projects set out in the International Capital Market Association Green Bond Principles 2018, and are further described in the ESB Green Bond Framework.

OVERVIEW OF THE ELECTRICITY MARKETS IN IRELAND, NORTHERN IRELAND AND GREAT BRITAIN

The structure of the electricity market in Ireland and Northern Ireland (the two jurisdictions being referred to together as **Island of Ireland**) and Great Britain (**GB**) can be divided into four segments: generation, supply, transmission and distribution. Electricity generation and supply are open to full competition throughout the Island of Ireland and throughout GB. Electricity transmission and distribution are regulated monopolies in each of Ireland, Northern Ireland and GB with the Office of Gas and Electricity Markets (**OFGEM**), the regulator of the energy market in GB, determining the allowed revenue for the relevant price review period.

Energy Policy and Regulation

The Government of Ireland, through the Minister for Environment, Climate and Communications is responsible for energy policy and energy affairs in Ireland.

Ireland has legislated for a national net zero emissions target by 2050 (in line with the European Commission's "European Green Deal"), with an interim target of reducing emissions by 51 per cent. (representing an average of a 7 per cent. reduction year-on-year) by 2030 measured against 2018 as a base year. This policy was statutorily enshrined in the Climate Action and Low Carbon Development (Amendment) Act 2021, which was signed into law by the President of Ireland on 23 July 2021.

The Climate Action and Low Carbon Development (Amendment) Act 2021 sees the implementation of carbon budgets which cover five-year periods as well as the requirement to produce a Climate Action Plan (**CAP**) and a long-term climate action strategy. The Government of Ireland published its most recent CAP in November 2021 which sets out to achieve significant decarbonisation across society including a target to produce up to 80 per cent. of electricity from renewable sources by 2030, to be achieved in part by a significant amount of new offshore wind generation. Electrification continues to be a major theme in Ireland's decarbonisation plan with many heating, transport and industry applications expected to move from fossil fuel to electric technologies.

In Northern Ireland, the Department for the Economy is responsible for energy policy and energy affairs. Ireland's and Northern Ireland's respective energy policies and regulations are currently heavily influenced by European Union, UK and international law. While the impact of the UK's withdrawal from the EU may ultimately lead to some divergence in future energy policy and regulation between Ireland and Northern Ireland, it is anticipated that the UK's prominent role on the global stage (including its recent presidency of both the G7 and the UN Conference-of-the-Parties to the Framework Convention on Climate Change) is indicative of the UK's desire to remain aligned with EU and international thinking in the area of energy policy and climate change.

In late 2021, the Department for the Economy in Northern Ireland published its new energy policy for Northern Ireland entitled "The Path to Net Zero Energy". This was followed by production of a delivery action plan in January 2022. This new strategy in Northern Ireland commits to a target to produce at least 70 per cent. of electricity from renewable sources by 2030, whilst also giving a high degree of support for electrification of many parts of the Northern Ireland economy.

Energy Policy and Regulation policies in GB are set by the Secretary of State for Business, Energy and Industrial Strategy.

The CRU is the independent regulator of the energy markets in Ireland. The UR is the independent regulator of the energy markets in Northern Ireland. Representatives from each of the CRU and the UR together with appointed independent members comprise the Single Electricity Market (**SEM**) Committee which makes decisions in relation to the wholesale electricity market, SEM (see further below).

As at the date of this Offering Circular, the "fit for 55" energy initiative is under development at the European Union level. This initiative forms part of the European Commission's "European Green Deal" which, in December 2019, launched an ambitious package of measures and roadmap which aims to fulfil the European Union's commitments under the Paris Agreement and to ultimately achieve a European Union target of net-zero emissions by 2050. The ongoing "fit for 55" initiative is a suite of proposed amendments for European Union energy legislations with the aim of reducing emissions by 55 per cent. by 2030 (as compared to 1990 as a base year). It is anticipated that the electricity sector will have a critical role in facilitating the energy transition to a zero emissions environment, either through direct electrification initiatives or indirectly through the production of green hydrogen via electrolysis.

Climate change continues to be one of the key political priorities for the European Commission and the European Parliament and there is growing political momentum to achieve the stated targets included in the European Green Deal.

As at the date of this Offering Circular, geopolitical events in Eastern Europe are currently having an impact on energy policy considerations across Europe and security of energy supply has come into focus in a way not seen

in recent decades. It is likely that climate policy development in the EU and UK will pay even more attention to security of supply and limiting reliance on imports to an acceptable level.

Single Electricity Market

The SEM came into operation on the Island of Ireland in November 2007 and it was reformed in 2018 to integrate with the pan-European market (by way of a project entitled ‘Integrated Single Electricity Market’). See further the section of this Offering Circular entitled “*Risk Factors Relating to the Issuer, the Guarantor and the Group – Political, regulatory and legal risks – Geopolitical risks*”.

SEM is operated by the Single Electricity Market Operator (**SEMO**). SEMO is a joint venture between EirGrid, the Transmission System Operator (**TSO**) for Ireland, and SONI, the TSO for Northern Ireland. SEMO is licensed and regulated co-operatively by the CRU and the UR.

The SEM includes a wholesale market for electricity in Ireland and Northern Ireland through which virtually all electricity generated in, or imported into, the Island of Ireland must be sold, and from which all wholesale electricity consumed in, or exported from, the Island of Ireland must be purchased. The key features of the market are a non-mandatory Day Ahead Market and Intraday Auctions as well as a mandatory Balancing Market. Generators and suppliers have the flexibility to price in these markets without reference to explicit bidding controls as existed in the previous SEM market but must comply with competition and EU law requirements. The exception to this is in the Balancing Market, where non energy balancing actions related to system stability must comply with a Bidding Code of Practice.

The SEM includes a forwards capacity market where generators bid for contracts for delivery one year-ahead (known as T-1) and four years ahead (known as T-4). Further, new build capacity may compete in the T-4 auction and achieve a fixed capacity contract for ten years to support new investment. In addition, in order to mitigate market power, the regulatory bodies direct ESB to sell each year to eligible suppliers a portion of output in the form of directed contracts for differences (**Directed CfDs**). The relevant regulatory bodies determine both the quantity and price (which is calculated using a model based on forward Day Ahead Price values) of these Directed CfDs.

Therefore, to the extent set out in the preceding paragraphs, there remains an element of regulatory control over the wholesale price of electricity on the Island of Ireland.

A generator may wish to mitigate the uncertainty associated with fluctuating SEM energy prices by entering into bilateral arrangements with participating suppliers, to achieve the effect of a fixed output price. This continues to be achieved through the selling of Non-Directed CfD contracts, in addition to Directed CfDs where the regulator determines the strike price.

GB Electricity Market

The British Electricity Trading and Transmission Arrangements (**BETTA**) is the wholesale electricity market operating in GB. Unlike SEM, trading can take place between generators and suppliers either bilaterally or through exchanges, and both physical and financial contracts can be agreed to manage price volatility, for time scales ranging from several years ahead to intra-day trading markets. National Grid, acting as the Electricity System Operator is responsible for balancing supply and demand in real time, by utilising the Balancing Mechanism (**BM**) and other system services. BETTA operates a capacity remuneration scheme, where generators are awarded capacity contracts based on the outcome of an auction, that enable them to receive payments for the provision of generation capacity while also incurring penalties for non-delivery during scarcity events. The main support mechanism for low-carbon technologies is Contracts for Difference (**CfD**); awarded through a competitive auction process.

In GB, the transmission network is owned by Scottish Hydro Electricity Transmission Limited, Scottish Power Transmission and National Grid Electricity Transmission. However, the entire transmission network is operated by one National Electricity Transmission System Operator called the Electricity System Operator (**ESO**). The statutory obligation of the ESO is to economically balance supply and demand near and at real time. At distribution network level, the network is owned and operated by various regional distribution companies.

In addition to interconnection with Ireland, GB is interconnected with France, Belgium, the Netherlands and more recently with Norway. An additional interconnector with France, named IFA2, with a capacity of 1,000 MW was commissioned in early 2021. A new interconnector with Norway, named the North Sea Link, with a capacity of 1,400 MW was also commissioned in October 2021. This brings the total GB import/export capacity to 7,400 MW.

Electricity Transmission

Ireland

The Irish electricity transmission system is a high voltage network for the transmission of bulk electricity supplies around Ireland. The high voltage lines deliver electricity from Ireland's generation sources to the transformer stations, where the electricity voltage is reduced and taken onwards through the distribution system to individual users' premises. There are also approximately 18 very large commercial users directly connected to the transmission system.

The Irish transmission system is operated and owned by separate entities, namely EirGrid (a separate Irish State-owned company) and ESB (acting through its ring-fenced ESB Networks division, **ESBN**).

EirGrid is the licensed operator of the Irish electricity transmission system. It has responsibility for the operation, maintenance and development of Ireland's transmission system in a safe, secure, reliable, economical and efficient manner. It offers terms and levies charges regulated by the CRU for the connection to and use of the system by market participants.

On 13 May 2021, the Government announced that EirGrid will be the TSO and the transmission asset owner (**TAO**) for the offshore windfarm sector transmission facilities that are developed to integrate offshore windfarms to the Irish electricity transmission system. These facilities are expected to be mainly point-to-point/ship-to-shore connections on the east coast of Ireland in the period up to 2030.

ESBN owns the Irish transmission system assets (with a regulatory asset base (**RAB**) value as at 31 December 2021 of approximately €2.7 billion) and is licensed as the TAO by the CRU. ESBN, in its capacity as TAO, is required to maintain the transmission system and carry out construction work for its development in accordance with the TSO's Transmission Development Plan. The interaction between EirGrid as TSO and ESBN as TAO is the subject of an agreement which has been approved by the CRU.

In Ireland, transmission revenue reviews are carried out by the CRU every five years based on the CRU allowed operating costs, recovery of allowed capital investment over their asset lifetimes, and an allowed return on the regulatory network asset base. The latest five-year review (agreed in December 2020) covers the period 2021 to 2025 and sets out the total allowed revenues over that period for both the TSO and the TAO. Each year the allowed revenue is refined in an annual review that updates a range of assumptions. This determines the allowed revenue in the relevant year, which is then used to calculate tariffs and charges to users of the transmission system. See further the section of this Offering Circular entitled "*Description of ESB - ESB Networks - ESB Networks Regulated Returns*".

Northern Ireland

EirGrid's subsidiary, SONI Limited (**SONI**), is the licensed operator of the Northern Ireland electricity transmission system (TSO).

Northern Ireland Electricity Networks Limited (**NIE Networks**), which was acquired by ESB in December 2010, owns the electricity transmission system in Northern Ireland and is the TAO.

The transmission functions of planning and operation of the transmission system are undertaken by SONI (as TSO) in accordance with the arrangements set out in a Transmission Interface Agreement (**TIA**) as agreed by the UR. NIE Networks is responsible for the development, construction and maintenance of the transmission system.

The UR sets the allowed TAO transmission revenues and tariffs for NIE Networks based on the UR allowed operating costs, recovery of allowed capital investment over their asset lifetimes, and an allowed return on the regulatory network asset base. The principles applied in this regard by the UR are similar to those used by the CRU and are based on the UK regulatory model applied by OFGEM to regulated networks. As with Ireland, a multi-year price control review takes place. The latest multi-year review covers the period from October 2017 to March 2024 (referred to as RP6) and sets out the total allowed revenues over that period for the TAO. Each year in the tariff setting process the allowed revenue is refined and updated for a range of assumptions.

Electricity Distribution

The electricity distribution system is the combination of high, medium and low voltage electricity networks used to deliver electricity to individual users (other than those very large users connected directly to the transmission network, referred to above).

Ireland

The Irish electricity distribution system (with a RAB value as at 31 December 2021 of approximately €6.1 billion) is owned and operated by separate entities within the Group. ESB Networks DAC is the licensed distribution system operator (**DSO**) in Ireland. The DSO is a wholly owned subsidiary of ESB and is subject to

corporate governance oversight by the Board of ESB but operates independently of ESB in relation to its DSO functions. It has responsibilities which include the operation, maintenance and development of Ireland's electricity distribution system in a safe, secure, reliable, economical and efficient manner. It offers terms and levies charges regulated by the CRU for the connection to and use of the distribution system by market participants.

The Irish distribution system assets are owned by ESBN as the distribution asset owner (**DAO**). The interaction between ESB Networks DAC in its capacity as DSO and ESBN in its capacity as DAO is the subject of an agreement which has been approved by the CRU.

Distribution revenue reviews are carried out by the CRU every five years and are refined on an annual basis. The latest five year review (agreed in December 2020) covers the period 2021 to 2025 and sets out the total allowed revenues over that period for both the DSO and the DAO based on the CRU allowed operating costs, recovery of allowed capital investment over their asset lifetimes, incentives and/or penalties relating to achievement of agreed targets and an allowed return on the regulatory network asset base. Each year the allowed revenue is refined in an annual review that updates a range of assumptions. This determines the allowed revenue in the relevant year which is then used to calculate tariffs and charges to users of the distribution system. See further the section of this Offering Circular entitled "*Description of ESB – ESB Networks – ESB Networks Regulated Returns*".

Northern Ireland

NIE Networks owns the electricity distribution system assets in Northern Ireland and is responsible for the planning, development, construction and maintenance of the entire distribution network, as well as the operation of the distribution network. NIE Networks had a RAB value of approximately GBP 1.8 billion for its regulated transmission and distribution asset base at the end of December 2021. NIE Networks' licence requires it to develop and maintain an efficient, coordinated and economical system of electricity distribution. The UR sets the allowed DAO and DSO revenues and tariffs for NIE Networks based on the UR allowed operating costs, recovery of allowed capital investment over their asset lifetimes, and an allowed return on the regulatory network asset base. As with Ireland, a multi-year price control review takes place. The latest multi-year review covers the period from October 2017 to March 2024 (referred to as RP6) and sets out the total allowed revenues over that period for both the DSO and the DAO activities carried out by NIE Networks. Each year in the tariff setting process the allowed revenue is refined and updated for a range of assumptions. In addition to the charges for transmission services levied on SONI, NIE Networks' revenue is also derived from charges for use of the distribution system levied on electricity suppliers. These charges are also regulated by the UR as outlined above.

Interconnection with Other Networks

A 500-megawatt power interconnector, owned by EirGrid, between Ireland and Wales (the **East-West Interconnector**) links the electricity transmission system in Ireland to the electricity transmission system in Great Britain, enabling two way transmission of electricity. EirGrid is responsible for the operation of the East-West Interconnector with the cost of the project recovered from end users.

In addition a 500-megawatt interconnector exists between Northern Ireland and Scotland (referred to as the **Moyle Interconnector**). This interconnector is owned and operated by Moyle Interconnector Limited.

The UK's withdrawal from the EU has resulted in changes in the way the existing interconnectors between Ireland and the UK operate. Technical discussions in relation to these changes take place under the auspices of the EU-UK Trade and Cooperation Agreement. As at the date of this Offering Circular, there has been limited progress in implementing new arrangements. However, in the interim, the existing interconnectors continue to function and allow trade to continue between Ireland and the UK.

Additional interconnectors are also planned for development between Ireland and France (known as the "Celtic Interconnector", a 700-megawatt interconnector to be developed by EirGrid and expected to be operational in 2026) together with a second interconnector between Ireland and Wales (to be known as "the Greenlink" and to be developed by a private company).

Electricity Generation

The SEM for the wholesale electricity generation sector comprises approximately 16,000 MW of capacity connected to the system on an Island of Ireland basis. The capacity connected to the system includes a mix of older generation plants alongside modern combined cycle gas turbine (CCGT) plants and renewable energy sources. These stations generate electricity from fuels such as gas, coal and oil as well as hydro, wind and biomass.

To connect to the electricity network, a generator must hold (i) an Authorisation to Construct or Reconstruct a Generating Station and (ii) a Generation Licence. In Ireland, the CRU is responsible for assessing and for

granting, or refusing to grant, these permits. The conditions imposed in the Authorisation and in the Licence must be met by the generator and compliance is monitored by the CRU on an on-going basis.

Electricity Supply

The liberalisation of Ireland's electricity supply market began in February 2000 with full market opening to all consumers in February 2005.

The CRU licenses electricity suppliers in Ireland and the UR licenses electricity suppliers in Northern Ireland.

Following a public consultation process with effect from 4 April 2011, the CRU removed price regulation previously imposed on ESB's retail electricity supply business in Ireland. In connection with the removal of such price regulation, ESB re-branded its retail electricity supply business in Ireland as 'Electric Ireland' and this business now operates in Ireland without price regulation.

The CRU's conditions for the price deregulation of ESB's retail electricity supply business in Ireland requires that ESB does not have a market share of more than 60 per cent. in Ireland's residential market and 50 per cent. market share for each of the small, medium and large business user segments.

As at 31 December 2021, Electric Ireland had approximately 1.2 million residential electricity customers in Ireland and Northern Ireland.

Electric Ireland holds the public electricity supply licence issued by the CRU. See further the section of this Offering Circular entitled "*Description of ESB –Customer Solutions*".

DESCRIPTION OF ESB

Overview

ESB was established as a statutory corporation in Ireland under the Electricity (Supply) Act 1927 (which was signed into law on 28 May 1927) and it operates under the ESB Acts 1927 to 2014 of Ireland. ESB's head office is at 27 Fitzwilliam Street Lower, Dublin 2, Ireland and its telephone number is +353 1 676 5831. ESB is majority owned by the Government of Ireland through the Minister for Public Expenditure and Reform of Ireland (who holds 86.3 per cent. of its issued capital stock) and the Minister for Environment, Climate and Communications of Ireland (who holds approximately 10.2 per cent. of its issued capital stock). The remaining issued capital stock of ESB (3.5 per cent.) is held by an Employee Share Ownership Trust.

The primary activities of ESB and its subsidiaries (together, the Group) are the ownership and/or operation of electricity distribution and transmission networks in Ireland and Northern Ireland and the generation and supply of electricity in Ireland and Great Britain. In addition, the Group supplies gas, energy services and uses its networks to carry fibre for telecommunications. As at 31 December 2021, the Group was the sole owner of the electricity distribution and transmission networks in Ireland and Northern Ireland (via Northern Ireland Electricity Networks Limited which is 100 per cent. indirectly owned by ESB) providing the Group with a RAB (see further below for an explanation of this term) of approximately €10.9 billion, owned a generation portfolio of 5.4 GW of thermal and renewable assets across the Island of Ireland (4.0 GW) and Great Britain (1.4 GW) and supplied electricity, gas and energy services to approximately 1.9 million customer accounts throughout the Island of Ireland and GB. On average in 2021, the Group employed approximately 7,938 people.

In 2021, ESB launched its “Driven to Make a Difference: Net Zero by 2040” initiative, which sets out a clear direction for ESB to take action and exercise leadership in tackling climate change. ESB intends to be net zero from carbon emissions by 2040 and this strategy aligns with the United Nations Sustainable Development goals.

Dividend Policy

ESB agreed a dividend policy with the Government of Ireland in 2013 which provides for a target dividend pay-out ratio of 40 per cent. of normalised profit after tax from 2017 and thereafter. It also recognises that sustaining a minimum credit rating of BBB+ on a standalone basis is a key policy objective for ESB and that this should be a priority consideration when considering dividend payments under this dividend policy.

These alternative performance measures are included in this Offering Circular to allow potential Noteholders to better assess the Group's performance and business.

Organisational Structure

The Group is organised into six main operating divisions as of 31 December 2021:

ESB Networks, which consists of the ownership of the electricity distribution and transmission assets in Ireland and the operation, through ESB Networks DAC, of the electricity distribution system in Ireland;

Northern Ireland Electricity Networks Limited, which is an independent company within the Group with its own board of directors, management and staff, that owns the electricity transmission and distribution networks in Northern Ireland and operates the electricity distribution network in Northern Ireland;

Generation and Trading, which consists of the Group's generation assets (both in Ireland and abroad) and related trading functions;

Customer Solutions, which consists primarily of the Group's customer facing businesses including energy supply (including Electric Ireland (Republic of Ireland) and So Energy (GB)), energy services, Telecoms and ecars (the Group's electric vehicle infrastructure business);

Engineering and Major Projects, which is focused on delivering major projects and engineering services across the Group; and

Enterprise Services, which delivers key internal business and strategic services to support the operating divisions.

The Group's generation and supply operational structure is motivated by an intention to implement a Generation, Trading and Supply business model, whilst observing applicable regulatory constraints. Regulatory developments may facilitate further movement towards this model in the future.

In addition, a Strategy, Innovation and Transformation Directorate is responsible for setting and managing strategic direction, corporate affairs, energy and regulatory policy and managing enterprise risk drivers. This Directorate is also responsible for managing the Group's investment in SIRO, a joint venture with Vodafone Ireland Limited investing in telecommunication assets through the rollout of its national Fibre-to-the-Building network with services available to over 620,000 premises as at December 2021.

A Finance and Commercial Directorate is responsible for Group financing, the assessment of investments, overall Group risk management and governance, and central accounting and reporting.

The primary activities of these six core operational divisions are described below.

ESB Networks

ESB Networks (**ESBN**) owns the electricity distribution and transmission systems in Ireland. The CRU has issued to ESB (i) Distribution Asset Owner (**DAO**) and (ii) TAO licences. As a regulated entity ESBN is subject to ring-fencing arrangements and its activities are subject to regulation by the CRU.

To date ESBN has carried out its functions through an integrated asset management and work delivery organisational model that covers both distribution and transmission. It has a staff of approximately 3,339 which is supplemented by external resources when required. As at 31 December 2021, it had a Regulated Asset Base (**RAB**) of approximately €8.8 billion. For comparison, its RAB as at 31 December 2017 was approximately €7.7 billion and as at 31 December 2010 was approximately €6.1 billion. ESB Networks accounted for 55 per cent. of the Group's EBITDA in 2021 and 51 per cent. of the Group's total assets (excluding cash) as at 31 December 2021.

ESB Networks DAC was established as a separate company to act as independent operator of the electricity distribution system in Ireland with effect from 1 January 2009. It holds a Distribution System Operator (**DSO**) licence from the CRU. ESB Networks DAC is a wholly owned subsidiary of ESB and is subject to corporate governance oversight by the Board of ESB, but operates independently of ESB in the exercise of its DSO functions.

ESBN's role as TAO is carried out under an agreement entered into with EirGrid, a separate Irish State-owned company, which is the TSO in Ireland. This agreement has been approved by the CRU.

ESB, through ESBN, also owns and maintains transmission circuits interconnecting the Northern Ireland and Ireland transmission systems. ESB's role with respect to these existing circuits is restricted to ownership, maintenance and asset replacement. Transmission system operation is the responsibility of EirGrid (in conjunction with SONI in Northern Ireland).

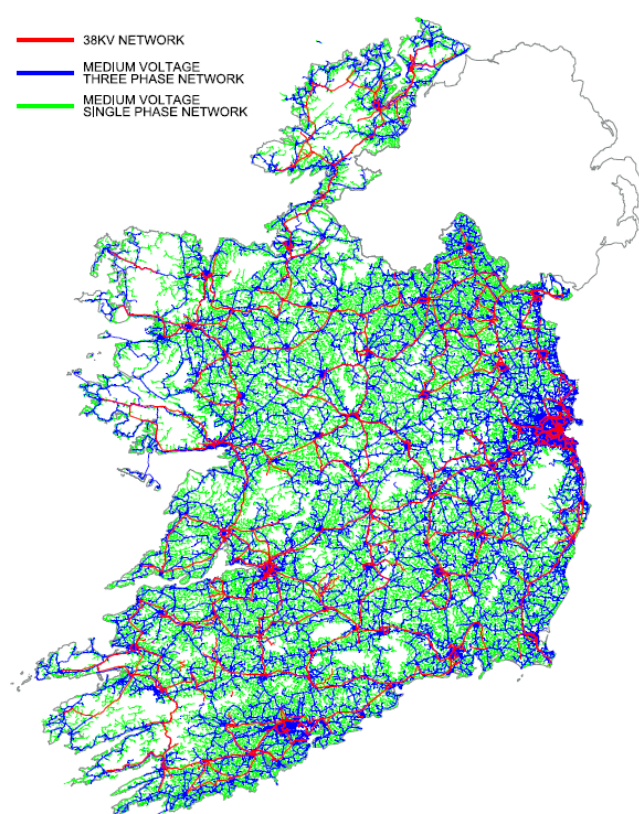

Distribution Business

As the holder of the DAO licence issued by the CRU, ESBN is the sole owner of the electricity distribution network in Ireland.

As holder of the DSO licence issued by the CRU, ESB Networks DAC is responsible for distribution system development and the construction, operation, and maintenance of over 260,000 transformers and over 170,000km of distribution networks. ESB Networks DAC is also responsible for the installation and maintenance of meters, for reading all end-user meters and for the processing of meter readings on behalf of all supply companies. The continued roll out of smart meters is a key feature of PR5 with over 2.3 million meters to be delivered by the end of the current PR period in 2025. In 2021, over 380,000 smart meters were successfully installed bringing the total installed as at 31 December 2021 to over 620,000. The priority for 2022 is to have safely installed a further 500,000 smart meters.

ESBN in its capacity as DAO and ESB Networks DAC in its capacity as DSO earn their respective revenues principally through charges for connection to and use of the distribution system, in each case as regulated by the CRU.

Transmission Business

As the holder of the TAO licence issued by the CRU, ESBN is the sole owner of the electricity transmission network in Ireland and is responsible for the construction and maintenance of the transmission system, subject to the terms of an agreement with the TSO, which has been approved by the CRU.

The transmission network comprises 99 transmission stations and over 7,400km of lines at three voltage levels: 400 kV, 220 kV and 110 kV.

The TAO earns its revenue principally through charges for connection to and use of the transmission system, as regulated by the CRU.

ESB Networks Regulated Returns

The returns which ESB Networks makes, in its respective capacities as TAO and DAO, are regulated by the CRU. The CRU sets the total revenues allowed to the TAO and DAO from the transmission system assets and distribution system assets, respectively, for consecutive five year periods (each a **Regulatory Price Control Period**) based on allowed operating costs, recovery of allowed capital investment over their asset lifetimes, and an allowed return on the regulatory network asset base. The Regulatory Price Control Period in effect as at the date of this Offering Circular covers the 5 year period 2021 to 2025 (inclusive) and is the fifth such period since inception of this legal regime in Ireland and is termed **PR5**. Each year the allowed revenue is refined in an annual review that updates a range of assumptions. This determines the allowed revenue in the relevant year which is then used to calculate tariffs and charges to users of the transmission and distribution systems. In addition, PR5 allows for ESB to earn performance incentive revenue which is linked to the efficient delivery of outputs and achievement of performance targets. ESB Networks is focused on the delivery of the work programmes approved as part of the PR5 allowed revenue determination.

As at 31 December 2021, the value of the RAB in respect of the transmission assets was approximately €2.7 billion and the value of the RAB in respect of the distribution assets was approximately €6.1 billion. The RAB value is adjusted annually for inflation or deflation. The CRU determined that the annual allowed return (Weighted Average Cost of Capital or **WACC**) on the RAB (as so adjusted) for PR5 is 3.80 per cent. plus inflation (calculated pre-tax real cost of debt and real pre-tax cost of equity). This WACC applies to both the transmission and distribution RAB. ESB Networks' RAB value is estimated by CRU to increase to approximately €10.0 billion (in 2019 money) at the end of the PR5 period in 2025 per the CRU's required RAB valuation methodology as outlined in the CRU's PR5 published revenue determination. The actual RAB value at the end of the PR5 period may differ from this estimate, depending on actual capital expenditure and the rate of inflation or deflation over the PR5 period.

ESB Networks made an operating profit (before exceptional items) of €409 million in the financial year ended 31 December 2021.

Northern Ireland Electricity Networks Limited

On 21 December 2010, ESB acquired Northern Ireland Electricity Networks Limited (then Northern Ireland Electricity Limited) (**NIE Networks**), the regulated Northern Ireland electricity networks business, from Viridian Group Ltd. for approximately GBP1.3 billion. NIE Networks is the sole owner and operator of the

distribution network in Northern Ireland and the sole owner of the electricity transmission network in Northern Ireland (SONI Limited operates the Northern Ireland transmission system). NIE Networks operates as a ring-fenced business within the Group. NIE Networks accounted for 15 per cent. of the Group's EBITDA in 2021 and 16 per cent. of the Group's total assets (excluding cash) as at 31 December 2021.

NIE Networks Regulated Returns

NIE Networks is subject to periodic reviews by the UR in respect of prices it may charge for use of the transmission and distribution network in Northern Ireland.

The sixth regulatory price control period (**RP6**) commenced on 1 October 2017 and will apply for the period to 31 March 2024.

The UR's RP6 final published revenue determination sets ex ante allowances of GBP0.7 billion for capital investment and GBP0.4 billion in respect of operating costs (in 2015/2016 money). The allowances in respect of major transmission load growth projects will be considered on a case by case basis, for example, the North-South Interconnector. The allowances will be adjusted to reflect 50 per cent. of the difference between the allowances set and actual costs incurred for both capital and operating costs. NIE Networks' customer connections business is largely outside the scope of the RP6 price control following the introduction of contestability in Northern Ireland.

The RP6 baseline rate of return of 3.18 per cent. plus inflation (weighted average cost of capital based on a pre-tax cost of debt and post-tax cost of equity) has been adjusted to 3.14 per cent reflecting the market cost prevailing for new debt raised during the RP6 period. This mechanism is new for RP6, departing from the RP5 approach of setting an ex-ante allowance, and will align the cost of debt component of the return more closely with prevailing market conditions at the time of drawdown of new debt. The allowed WACC will be applied to both the transmission and distribution Regulatory Asset Base, with NIE Networks' RAB value estimated by UR to be approximately GBP1.5 billion (in 2015/2016 money) at the end of the RP6 period in 2024 per the UR's required RAB valuation methodology as outlined in the UR's RP6 final published revenue determination. The actual RAB value at the end of the RP6 period may differ from this estimate, depending on actual capital expenditure and the rate of inflation or deflation over the RP6 period.

As at the end of the RP5 period at 30 September 2017, NIE Networks had a RAB value of GBP1.5 billion (nominal prices), an increase of GBP0.3 billion since the end of RP4 at the end of March 2012.

Generation and Trading

Generation and Trading (**GT**) develops, operates and trades the output of ESB's generation assets. It has a generation portfolio of 5.4 GW, which includes approximately 4.0 GW of generation in the SEM on the Island of Ireland and approximately 1.4 GW in Great Britain. GT accounted for 22 per cent. of the Group's EBITDA in 2021 and 24 per cent. of the Group's total assets (excluding cash) as at 31 December 2021. GT has a diversified mix of fuels in its portfolio (per cent. of production by fuel type for 2021: 14 per cent. renewable (wind, hydro and solar); 68 per cent. gas and oil; and 18 per cent. coal).

For further details in relation to the SEM see the section of this Offering Circular entitled "*Overview of the Electricity Markets in Ireland, Northern Ireland and Great Britain*".

Generation – SEM

GT is, to date, the SEM's largest generator in Ireland with an approximate 33 per cent. of market share by volume for the twelve month period ended on 31 December 2021.

Details of GT's SEM generation plants in operation as at 31 December 2021 are shown in the table below:

GT Generation Capacity Breakdown – SEM			
At 31 December 2021	MW		
Coal		Hydro	
Moneypoint	855	Ardnacrusha	86
		Erne (Cathleen's Falls/Cliff) and Clady	69
Gas		Lee (Carrigdrohid/Inniscarra)	27

		Wind	
Oil		Wind Portfolio	602
Coolkeeragh	53		
		Solar	1
		Total SEM Portfolio	4,025

Source: ESB

GT's generation portfolio contains a balance of plants at various stages in the merit order including base-load, mid-merit and peaking plant. This diversification helps to protect GT from reductions in demand while allowing returns to be maximised during peak periods. GT also has a diversified mix of fuel which aims to protect the generation portfolio from commodity movements.

Licence changes were put in place by the regulatory authorities in 2013, giving effect to their decision to allow the removal of ring-fences which had historically separated GT's regulated and unregulated generation portfolios. This allowed organisational and system changes to be implemented within GT to bring the two portfolios together, resulting in reduced costs and improved risk management capabilities.

Generation – Great Britain

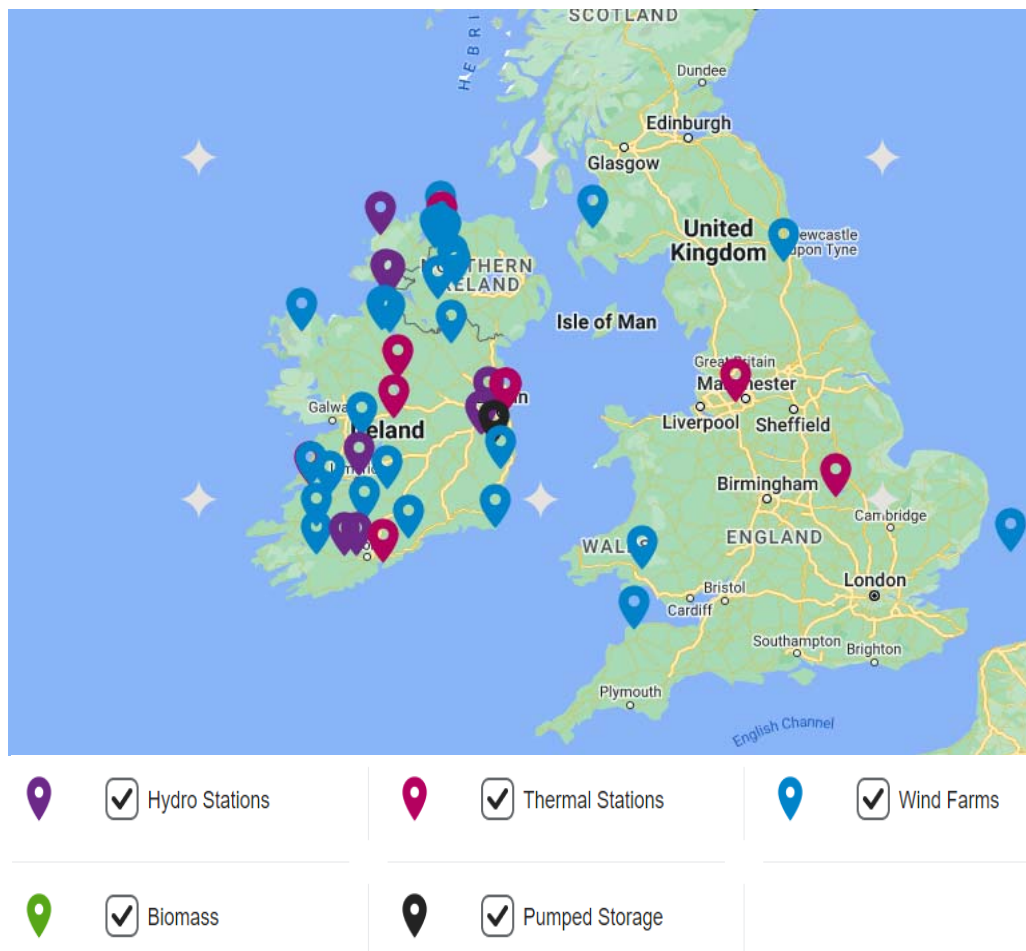

GT currently owns 100 per cent. of Corby CCGT plant in addition to three wind farms in Devon, Wales and West Durham and the 881MW CCGT plant at Carrington in Manchester, which successfully entered commercial operation in September 2016. In March 2018, ESB acquired a 12.5 per cent. of the Galloper offshore wind farm in the North Sea, which reached commercial operations in September 2018. In November 2019, ESB acquired 50 per cent of the Neart Na Gaoithe offshore windfarm off the coast of Scotland. This offshore wind project is a joint venture with EDF Renewables and is currently in the construction phase. The windfarm is scheduled to be commissioned in 2024. In 2020, ESB acquired a 50 per cent. stake in the Inch Cape offshore wind farm located off the coast of Scotland.

The table below outlines details of the operational Great British portfolio of assets as at 31 December 2021:

GT Generation Assets Operating Outside SEM

Location	Type / Capacity	Operational Since	ESB Ownership
Corby, England	Gas-Fired, 350 MW	1992	100%
Wind Assets	Wind, 125 MW	Various	100%

Trading

ESB Trading engages in energy trading activities to manage the operational and commercial exposures arising from ESB's ownership of generation assets. The output of these assets is sold into the SEM and Great Britain markets and GT seeks to hedge forecast generation to have the effect of reducing energy margin volatility.

Within the SEM market a large portion of forecast generation is hedged through contracts for differences (CfDs) to suppliers and through bi-lateral sales to industrial and commercial customers. As part of the regulatory regime to mitigate ESB's market power, the regulatory authorities mandate ESB to sell CfD hedging contracts known as 'Directed Contracts' each year to other market participants (amounting to approximately 3.2TWh in 2021). These Directed Contracts are sold at a price determined by the regulatory authorities. Within the Great Britain market, forecast generation is hedged directly with wholesale counterparties in the market.

GT additionally executes hedges on behalf of other ESB entities to support the risk management of their electricity and gas customer business.

Development Activities

GT is responsible for identifying and developing opportunities to enhance and expand ESB's generation portfolio, in order to build a balanced, low-carbon generation portfolio in Ireland and Great Britain, as part of ESB's strategic ambition of delivering generation/supply businesses of scale. There was further progress on this objective during 2021, with the development, construction and delivery of a number of new generation assets including the following:

Biomass

Following the sale of its investment in the operational Tilbury waste wood biomass plant in June 2021, ESB has retained the sole right to develop a phase two project on the Tilbury site, in Essex, which is an energy from waste plant known as Thameside Energy Recovery Facility. Pre-development work is on-going with respect to that project with a view to realising value from the project through a disposal in the short to medium term. ESB does not have a long-term strategic ambition in the Energy from Waste sector as at the date of this Offering Circular.

Offshore Wind

- In April 2021, ESB launched its 'Green Atlantic @ Moneypoint' programme in County Clare. During the coming decade, the site will be used as a green energy hub, helping Ireland to become a leader in green energy production. 'Green Atlantic @ Moneypoint' is a multi-billion euro programme of significant investments on the site over the next decade.
- In 2020, ESB acquired a 50 per cent. shareholding in the 1,000 MW Inch Cape offshore wind farm off the east coast of Scotland. The project is progressing through the development phase with a number of geotechnical surveys completed during 2021. Commercial operation is targeted for 2026.
- Construction continued on the 448 MW Neart na Gaoithe offshore wind project, also off the east coast of Scotland. While significant progress has now been made, challenges have been experienced in the delivery of the foundations package, due to Covid related disruption and other factors, which will result in a delay to commencement of commercial operation to 2024 (originally targeted in Q4, 2022).
- Offshore wind in Ireland remains a key focus for ESB through continued partnering with Parkwind in the development of the Oriel and Clogherhead wind farms, both located off the coast of County Louth.

Onshore Wind

- In partnership with Bord na Móna, construction commenced on the 83 MW Oweninny Phase 2 wind farm in north Mayo.
- Future Energy Ireland, a joint venture between ESB and Coillte (the Irish state owned forestry board) to develop up to 1,000 MW of onshore wind in Ireland on Coillte lands commenced operations during 2021.
- ESB continues to develop its onshore development wind portfolio in Great Britain (principally in Scotland), with a view to bidding them in to forthcoming CfD allocation rounds.

Solar

ESB is continuing development of potential solar projects from the Terra solar pipeline, its arrangement with Harmony Solar Ireland Limited and through ESB's joint ventures with Bord na Móna. One wholly owned solar project secured a 15 year CfD in the first Renewable Electricity Support Scheme (RESS) auction in 2020, and is

currently under development, and up to an additional 5 projects will be bid into the RESS-2 auction in late 2022, with a large and growing pipeline under development for later in the decade.

Flexible Generation

- GT has commenced construction of four battery projects (Inchicore, Aghada, Poolbeg and Ringsend), totaling 154 MW. It is expected that all four will be in operation by early 2023. A second 150 MW battery storage project at Aghada secured a capacity contract in the T-3 auction in January 2022 and is expected to commence commercial operations in 2024.
- GT is also developing three separate gas generation projects which together can contribute approximately 190 MW of new generation capacity in the Dublin region.

Customer Solutions

Customer Solutions consists primarily of the Group's customer facing businesses including energy supply, energy services, telecoms, ecars (the Group's electric vehicle infrastructure business) and a home retro-fit business.

In 2010, ESB rebranded its two previously separate energy supply businesses, the regulated ESB Customer Supply (**ESBCS**) and the unregulated ESB Independent Energy (**ESBIe**), as Electric Ireland. The rebranding was a regulatory requirement to facilitate the deregulation of ESBCS and the uniting of the two businesses into a single supply entity. Ring-fencing restrictions between ESBIe and ESBCS were lifted by the CRU following full business market deregulation on 1 October 2010. From April 2011, Electric Ireland has been free to offer competitive, unregulated tariffs to all electricity and gas users in Ireland. Electric Ireland entered the Northern Ireland Market in October 2015.

In August 2021, Customer Solutions acquired "So Energy" a UK energy supplier, in order to grow its position in the UK retail market. So Energy and ESB Energy Limited (ESB's existing UK retail brand) have merged, resulting in a business serving more than 300,000 customers, with the combined business continuing to trade as "So Energy" and with ESB retaining a majority stake of the new combined entity. Continued volatility in the wholesale commodity and energy price markets in the second half of 2021 along with the effects of OFGEM's cap on the price that energy suppliers may charge to domestic customers in the UK has led to challenging market conditions for UK energy suppliers, including So Energy.

As at 31 December 2021, Electric Ireland supplied electricity to approximately 1.2 million customers in the retail market of the Island of Ireland and had an Island of Ireland market share (including businesses) of approximately 40 per cent.

Electric Ireland is the main brand within the Customer Solutions business and operates on a standalone basis from other businesses within the Group. It purchases electricity from the SEM in order to supply the electricity needs of its customers. Electric Ireland hedges a significant part of its purchasing requirements through **CfDs**. ESB is working towards an integrated generation, trading and supply (GTS) model.

To facilitate end user price stability, Electric Ireland has a strategy of hedging a high proportion of demand, excluding Large Energy Users, through power **CfDs**.

As the Public Electricity Supplier (**PES**), Electric Ireland is required to offer a supply of electricity to all customers in the Irish market with a demand level of less than 30kVA. In 2011, the CRU decided that the role of the Supplier of Last Resort (**SoLR**) should be offered to the market subject to the design and completion of a competitive process (that is not yet in place) and that the incremental costs of a SoLR event should be socialised. All supply licenses now contain an obligation to serve as the SoLR, where directed by the CRU.

Customer Solutions also includes ESB's other customer facing businesses including Smart Energy Services, ESB Telecoms (via ESB Telecoms Ltd), ESB ecars (the Group's electric vehicle infrastructure business) and Electric Ireland Superhomes.

- Smart Energy Services – provides energy management services to large energy users in Ireland and Great Britain.
- ESB Telecoms Ltd – provides telecommunications and fibre solutions in the wholesale market leveraging ESB's electricity network infrastructure.
- ESB ecars - has installed and is operating a national electric vehicle charging infrastructure in Ireland which will support the Irish Government's stated target of widespread electric vehicle penetration. It also provides a growing number of vehicle charging points in the UK.
- Electric Ireland Superhomes – a joint venture created with Tipperary Energy Agency in 2021 providing a home retro-fit service to domestic customers.

Engineering and Major Projects

Engineering and Major Projects is focused on delivering major projects and engineering solutions required by ESB and its customers to lead the transition to reliable, affordable and low carbon energy. It includes ESB International which offers a full range of engineering consultancy and operations and maintenance services to utility customers in Ireland, including the Group, and internationally.

Enterprise Services

Enterprise Services delivers key internal business and strategic services to support the operating divisions including IT, legal, procurement, insurance, pensions, people and finance operations.

TAXATION

Irish Taxation

The following summary of the anticipated tax treatment in Ireland in relation to the payments on Notes is based on Irish tax law and the practices of the Revenue Commissioners of Ireland (the Irish tax authorities) as in force at the date of this Offering Circular. It does not constitute tax or legal advice and it does not purport to be, and is not, a complete description of all of the tax considerations that may be relevant to a decision to subscribe for, buy, hold, sell, redeem or dispose of Notes. The summary relates only to the position of persons who are the absolute beneficial owners of Notes and the interest payable on them (**Noteholders**). Prospective investors should consult their own professional advisers on the implications of subscribing for, buying, holding, selling, redeeming or disposing of Notes and the receipt of interest on Notes under the laws of the jurisdictions in which they may be liable to tax.

1. Withholding Taxes

Unless otherwise exempt, withholding tax at the standard rate of income tax (currently 20 per cent.) must be deducted from payments of yearly interest that are within the charge to Irish tax, which would include payments of interest on Notes. Yearly interest is interest that is capable of arising for a period of one year.

1.1 Discount

No withholding for or on account of income tax will be required to be made from payments of discount on Notes, as such amounts do not represent yearly interest.

1.2 Notes having a maturity of less than one year

No withholding for or on account of income tax will be required to be made from payments of interest on Notes having a maturity of less than one year, as such amounts do not represent yearly interest.

1.3 Quoted Eurobond exemption

Section 64 of the Taxes Act provides for the payment of interest in respect of Quoted Eurobonds without deduction of tax in certain circumstances. A **Quoted Eurobond** is defined in section 64 of the Taxes Act as a security which:

- (a) is issued by a company;
- (b) is quoted on a recognised stock exchange (the Irish Stock Exchange plc trading as Euronext Dublin is a recognised stock exchange for this purpose); and
- (c) carries a right to interest.

There is no obligation to withhold tax from payments of interest on Quoted Eurobonds (**Exempted Quoted Eurobonds**) where:

- (a) the person by or through whom the payment is made is not in Ireland; or
- (b) the payment is made by or through a person in Ireland; and
 - (i) the Quoted Eurobond is held in a recognised clearing system (Euroclear and Clearstream, Luxembourg are recognised clearing systems for this purpose); or
 - (ii) the person who is the beneficial owner of the Quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made an appropriate declaration to this effect.

1.4 Wholesale Debt Instrument exemption

Section 246A of the Taxes Act provides for the payment of interest on certain Wholesale Debt Instruments without deduction of tax in certain circumstances. Notes are **Wholesale Debt Instruments** for this purpose if they:

- (a) recognise an obligation to pay a stated amount;
- (b) carry a right to interest or are issued at a discount or at a premium;
- (c) mature within two years; and
- (d) are issued with a minimum denomination of €500,000 if denominated in euro, US\$500,000 if denominated in US dollars or, in the case of Notes which are denominated in a currency other than

euro or US dollars, the equivalent in that other currency of €500,000 (such amount to be determined by reference to the relevant rate of exchange at the date of the first publication of this program).

There is no obligation to withhold tax from payments of interest on Wholesale Debt Instruments (**Exempted Wholesale Debt Instruments**) in certain circumstances. These circumstances are where:

- (a) the Wholesale Debt Instrument is held in a recognised clearing system (Euroclear and Clearstream, Luxembourg are recognised clearing systems for this purpose); or
- (b) the person by whom the payment is made or the person through whom the payment is made is resident in Ireland or the payment is made by or through a branch or agency through which a company not resident in Ireland carries on a trade or business in Ireland; and
either:
 - (i) the person who is beneficially entitled to the interest is a resident of Ireland who has provided their tax reference number to the payer; or
 - (ii) the person who is the beneficial owner of the Wholesale Debt Instrument and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration in the prescribed form.

1.5 Section 246 of the Taxes Act (**Section 246**)

Section 246 provides certain exemptions from this general obligation to withhold tax including an exemption in respect of interest payments made by a company in the ordinary course of business carried on by it to a company:

- (a) that is resident for the purposes of tax in a relevant territory except where the interest is paid to the company in connection with a trade or business carried on in Ireland by that company through a branch or agency, provided that relevant territory imposes a tax that generally applies to interest receivable in that relevant territory by companies from sources outside that relevant territory; or
- (b) provided that the interest payable is exempted from the charge to income tax under a double taxation agreement in effect with Ireland or would be so exempted if a double taxation agreement signed by Ireland that will have the force of law following completion of the procedures set out in section 826(1) of the Taxes Act, had the force of law.

In addition, section 246 includes an exemption in respect of interest payments made by a qualifying company within the meaning of section 110 of the Taxes Act (ESB Finance DAC is such a qualifying company) to a person who is resident for the purposes of tax in a relevant territory, except, in a case where the person is a company, where the interest is paid to the company in connection with a trade or business carried on in Ireland through a branch or agency.

For the purpose of this Irish Taxation section “relevant territory” means an E.U. Member State, other than Ireland, or not being such a Member State, a territory with which Ireland has signed a double taxation agreement.

For the purpose of this section 1.5, residence is to be determined under the laws of the relevant territory.

As of the date of this Offering Circular, Ireland has signed a double taxation agreement with each of Albania, Armenia, Australia, Austria, Bahrain, Belarus, Belgium, Bosnia & Herzegovina, Botswana, Bulgaria, Canada, China, Chile, Croatia, Cyprus, Czech Republic, Denmark, Egypt, Estonia, Ethiopia, Finland, France, Germany, Georgia, Ghana (not yet in effect), Greece, Hong Kong, Hungary, Iceland, Israel, India, Italy, Japan, Kazakhstan (Rep. of), Kenya (not in effect as of the date of this Offering Circular), Korea (Rep. of), Kosovo, Kenya (not in effect as of the date of this Offering Circular), Kuwait, Latvia, Lithuania, Luxembourg, Macedonia, Malaysia, Malta, Mexico, Moldova, Montenegro, Morocco, the Netherlands, New Zealand, Norway, Pakistan, Panama, Poland, Portugal, Qatar, Romania, Russia, Saudi Arabia, Serbia, Singapore, Slovak Republic, Slovenia, South Africa, Spain, Sweden, Switzerland, Thailand, Turkey, Ukraine, United Arab Emirates, United Kingdom, United States of America, Uzbekistan, Vietnam and Zambia. In addition negotiations for a double taxation agreement with each of Oman and Uruguay have concluded.

2. Liability of Noteholders to income tax

Persons resident in Ireland for the purposes of tax are subject to corporation tax or income tax on their worldwide income, which would include interest payable and discounts realised on Notes.

A company wherever resident, if receiving interest or discount in connection with a trade carried on in Ireland through a branch or agency is subject to Irish corporation tax on that interest and discount.

Other persons not resident in Ireland for the purposes of Irish tax are subject to Irish income tax on the interest payable and discounts realised on Notes unless otherwise exempt.

2.1 Section 198 of the Taxes Act

- (a) A company which is not resident in Ireland for the purposes of Irish tax will not be chargeable to Irish income tax in respect of interest paid (in the ordinary course of business of the relevant Issuers) or discounts realised on Notes, if either:
 - (i) the company is resident in a relevant territory and such relevant territory imposes a corporate or income tax that generally applies to interest receivable in that relevant territory by companies from sources outside that relevant territory, or
 - (ii) the interest paid is exempted from the charge to Irish income tax under a double taxation agreement that is in effect with Ireland or would be so exempted if a double taxation agreement signed by Ireland that will have the force of law following completion of the procedures set out in section 826(1) of the Taxes Act, had that force of law.
- (b) A person (whether or not a company) who is not resident in Ireland for the purposes of Irish tax will not be chargeable to Irish income tax in respect of discounts realised on Notes if the person is resident in a relevant territory; or
- (c) A person will not be chargeable to income tax in respect of interest received in respect of an Exempted Quoted Eurobond or an Exempted Wholesale Debt Instrument where that person is:
 - (i) a person who is resident for the purposes of tax in a Member State of the European Union (other than Ireland) or in a relevant territory; or
 - (ii) a company controlled, either directly or indirectly, by persons resident for the purposes of tax in a relevant territory, and who are not under the control, whether directly or indirectly, of a person who is, or persons who are not so resident; or
 - (iii) a company the principal class of shares of which, is substantially and regularly traded on a stock exchange in Ireland, on a recognised stock exchange in a relevant territory or on such other stock exchange as is approved by the Minister for Finance of Ireland.
- (d) A person (whether or not a company) who is not resident in Ireland for the purposes of Irish tax will not be chargeable to Irish income tax in respect of interest received or discounts realised on Notes if the person is resident in a relevant territory and the interest is paid by a qualifying company within the meaning of section 110 of the Taxes Act out of the assets of the qualifying company.

For the purpose of this section 2.1, where a relevant territory has concluded a double taxation agreement with Ireland, residence is to be determined under the terms of that agreement.

2.2 Double taxation agreements

Ireland's double taxation agreements, that are in effect, may relieve or exempt interest from Irish tax when received by a resident of the other territory provided certain procedural formalities are completed.

Interest and discounts realised on Notes that do not fall within the above exemptions are within the charge to income tax to the extent that a double taxation agreement that is in effect does not exempt the interest or discount as the case may be.

However, it is understood that the Revenue Commissioners have, in the past, operated a practice (as a consequence of the absence of a collection mechanism rather than adopted policy) whereby no action will be taken to pursue any liability to such tax in respect of persons who are regarded as not being resident in Ireland for the purposes of tax except where such persons:

- (a) are chargeable in the name of a person (including a trustee) or in the name of an agent or branch in Ireland having the management or control of the interest; or
- (b) seek to claim relief and/or repayment of tax deducted at source in respect of taxed income from Irish sources; or
- (c) are chargeable to Irish corporation tax on the income of an Irish branch or agency or to income tax on the profits of a trade carried on in Ireland to which the interest is attributable.

There can be no assurance that the Revenue Commissioners will apply this practice in the case of the holders of Notes and, as mentioned above, there is a statutory obligation to account for Irish tax on a self-assessment basis and there is no requirement for the Revenue Commissioners to issue or raise an assessment.

3. Encashment tax

Interest on any Note which is an Exempted Quoted Eurobond realised or collected by an agent in Ireland on behalf of a holder will generally be subject to a withholding tax at a prescribed rate of 25 per cent. This is unless the beneficial owner of the Note that is entitled to the interest is not resident in Ireland and makes a declaration in the required form. This is provided that such interest is not for the purposes of tax deemed, under the provisions of tax legislation, to be the income of another person that is resident in Ireland. In addition, an exemption applies where the payment is made to a company where that company is beneficially entitled to that income and is or will be within the charge to corporation tax in respect of that income.

4. Stamp Duty

No stamp duty is payable on the issue or the transfer by delivery of Notes.

Section 86 of the Stamp Duties Consolidation Act provides that no stamp duty will be chargeable on any instrument transferring Notes that are issued by ESB.

In the event of written transfer of Notes issued by ESB Finance, no stamp duty is chargeable provided that ESB Finance is a qualifying company within the meaning of section 110 of the Taxes Act, and the money raised by the Notes is used in the course of its business.

Where the above exemptions or another exemption does not apply, the instrument of transfer is liable to stamp duty at the rate of one per cent. of the consideration paid in respect of the transfer (or if greater, the market value thereof) which must be paid in Euro by the transferee (assuming an arm's length transfer) within 30 days of the date on which the transfer instrument is executed, after which interest and penalties will apply.

5. Capital Gains Tax

Section 607 of the Taxes Act provides that Notes issued by ESB are not chargeable assets for the purposes of Irish tax.

Separately, provided Notes are listed on a stock exchange, a holder will not be subject to tax on capital gains in respect of those Notes unless that holder is either resident or ordinarily resident for tax purposes in Ireland or that holder has an enterprise or an interest in an enterprise, which carries on business in Ireland through a branch or agency, or a permanent establishment, to which or to whom Notes are attributable.

If Notes issued by ESB Finance are at any time not listed on a stock exchange, then an exemption from tax on capital gains tax in respect of such Notes will continue to apply to the holders who are exempted in the circumstances referred to in the paragraph immediately above, insofar as Notes do not derive their value, or the greater part of their value, from Irish land or certain Irish mineral rights.

6. Capital Acquisitions Tax

If Notes are comprised in a gift or inheritance taken from a person resident or ordinarily resident for tax purposes in Ireland or if the donor's successor is resident or ordinarily resident for tax purposes in Ireland, or if any of Notes are regarded as property situate in Ireland, the donor's successor (primarily), or the donor, may be liable to capital acquisitions tax. The Notes may be regarded as property situate in Ireland.

For the purposes of capital acquisitions tax, under current legislation a non-Irish domiciled person will not be treated as resident or ordinarily resident in Ireland for the purposes of the applicable legislation except where that person has been resident in Ireland for the purposes of tax for the 5 consecutive years of assessment immediately preceding the year of assessment in which the date of the gift or inheritance falls.

7. Automatic Exchange of Information for Tax Purposes

Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU) (**DAC2**) provides for the implementation among EU Member States (and certain third countries that have entered into information exchange agreements) of the automatic exchange of information in respect of various categories of income and capital and broadly encompasses the regime known as the CRS published by the OECD as a new global standard for the automatic exchange of information between tax authorities in participating jurisdictions.

Under the CRS, governments of participating jurisdictions are required to collect detailed information to be shared with other jurisdictions annually.

CRS is implemented in Ireland pursuant to the Returns of Certain Information by Reporting Financial Institutions Regulations 2015, S.I. 583 of 2015, made under Section 891F of the Taxes Consolidation Act 1997, as amended.

DAC2 is implemented in Ireland pursuant to the Mandatory Automatic Exchange of Information in the Field of Taxation Regulations of 2015, S.I. No. 609 of 2015 made under Section 891G of the Taxes Consolidation Act 1997, as amended.

Pursuant to these regulations, the Issuers and the Guarantor (where the Issuer is ESB Finance) may be required to obtain and report to the Revenue Commissioners annually certain financial account and other information for all non-Irish and non-U.S. new and existing holders of Notes (and, in certain circumstances, their controlling persons). The returns must be submitted by 30 June annually. The information must include amongst other things, details of the name, address, taxpayer identification number (**TIN**), place of residence and, in the case of holders of Notes who are individuals, the date and place of birth, together with details relating to payments made to accountholders and their holdings. This information may be shared with tax authorities in other EU Member States (and in certain third countries subject to the terms of Information Exchange Agreements entered into with those countries) and jurisdictions which implement the CRS.

Foreign Account Tax Compliance Act (FATCA)

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. The Issuers and the Guarantor (where the Issuer is ESB Finance) may be foreign financial institutions for these purposes. A number of jurisdictions (including Ireland) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the relevant issuer). However, if additional Notes (as described under “Terms and Conditions—Further Issues”) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes.

FATCA Implementation in Ireland

The obligations of Irish foreign financial institutions under FATCA are covered by the provisions of the Ireland/US IGA (signed in December 2012) and the Financial Accounts Reporting (United States of America) Regulations 2014, as amended (the **Regulations**). Under the IGA and the Regulations, any Irish financial institutions as defined under the IGA are required to report annually to the Revenue Commissioners details on its US account holders including the name, address and taxpayer identification number (**TIN**) and certain other details. Such institutions have been required to amend their account onboarding procedures in order to easily identify US new account holders and report this information to the Revenue Commissioners.

8. The Proposed Financial Transactions Tax (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission’s Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement dated 5 August 2022 (such programme agreement as modified and/or supplemented and/or restated from time to time, the **Programme Agreement**), agreed with ESB and ESB Finance a basis upon which they or any of them may from time to time agree to purchase Notes. In the Programme Agreement, ESB and ESB Finance have agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

United States

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The applicable Final Terms will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (a) as part of its distribution at any time or (b) otherwise until 40 days after the completion of the distribution of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Each issuance of Index Linked Notes shall be subject to such additional U.S. selling restrictions as the relevant Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Final Terms.

Prohibition of sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. Dealers transacting with ESB and ESB Finance

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for ESB and ESB Finance and their affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuers and their affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of either Issuer or their respective affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Where the Trustee is unable to take any action, the Noteholders are permitted by the Conditions and the relevant Trust Deed to take the relevant action directly.
